

ESCAP Congress Director Report

Stephan Eliez, Past-President of ESCAP

ESCAP General Assembly

Maastricht, 2022 June 21

ESCAP

**European Society for Child
and Adolescent Psychiatry**

Since our Vienna congress 2019, we had the COVID storm taking over congresses organization worldwide

We adjusted in

Changing our 2021 congress in Maastricht to 2022

Adding an online event in June of 2021 (joint ESCAP-UEMS-EFPT event)

Maintain the Copenhagen congress in 2023 and resume on the planned rhythm of one congress every 2 years (Strasbourg in 2025 and possibly Athens in 2027)

In the close future

- We plan more online training events
- Use our congresses to relate even more with our natural partners
 - Communities of practitioners (MBT or 22q11 DS clinical communities)
 - Societies like UEMS or EFPT
- Reach out to associate patient communities as well as representatives of patient associations or Youngsters concerned with children and young adults mental health
- Promote communication of European Research initiatives/Projects at our ESCAP congresses
