

EU projects for the General Assembly

June 2022

Laura A Kehoe

EU projects

- **EU Transparency Register**
 - ESCAP is now officially registered here which is a database that lists organisations that try to influence the law-making and policy implementation process of the EU institutions
- **EU Health Policy Platform**
 - The EU Health Policy Platform is an interactive tool to boost discussions about public health concerns, share knowledge and best practices
- **EU Horizon Projects – ESCAP fully registered on the EU funding and tenders portal**
 - ESCAP can offer Communication and Dissemination of projects for partners
 - ESCAP are official partners on the FAMILY project
 - ESCAP have supported the proposal of the YoungMoods project – decision pending

EU Horizon – FAMILY project

- ‘Running in the FAMILY – Understanding and predicting the intergenerational transmission of mental illness’
- Starts Oct 1st 2022
- The overall aim of FAMILY is to systematically integrate the family context in the study of mental disorders. FAMILY aims to identify mechanisms underlying the transmission of disease risk from affected parent to offspring, establish how resilience factors moderate risk factors, take a biomarker and resilience assessment approach to improve risk prediction, and map societal and ethical consequences of risk prediction.
- ESCAP will partner to help communicate and disseminate information out about the project as it progresses
