CHILD AND
ADOLESCENT
PSYCHIATRY**

**24TH
INTERNATIONAL
CONGRESS**

JUIN 2031

**LAUSANNE
SWITZERLAND**

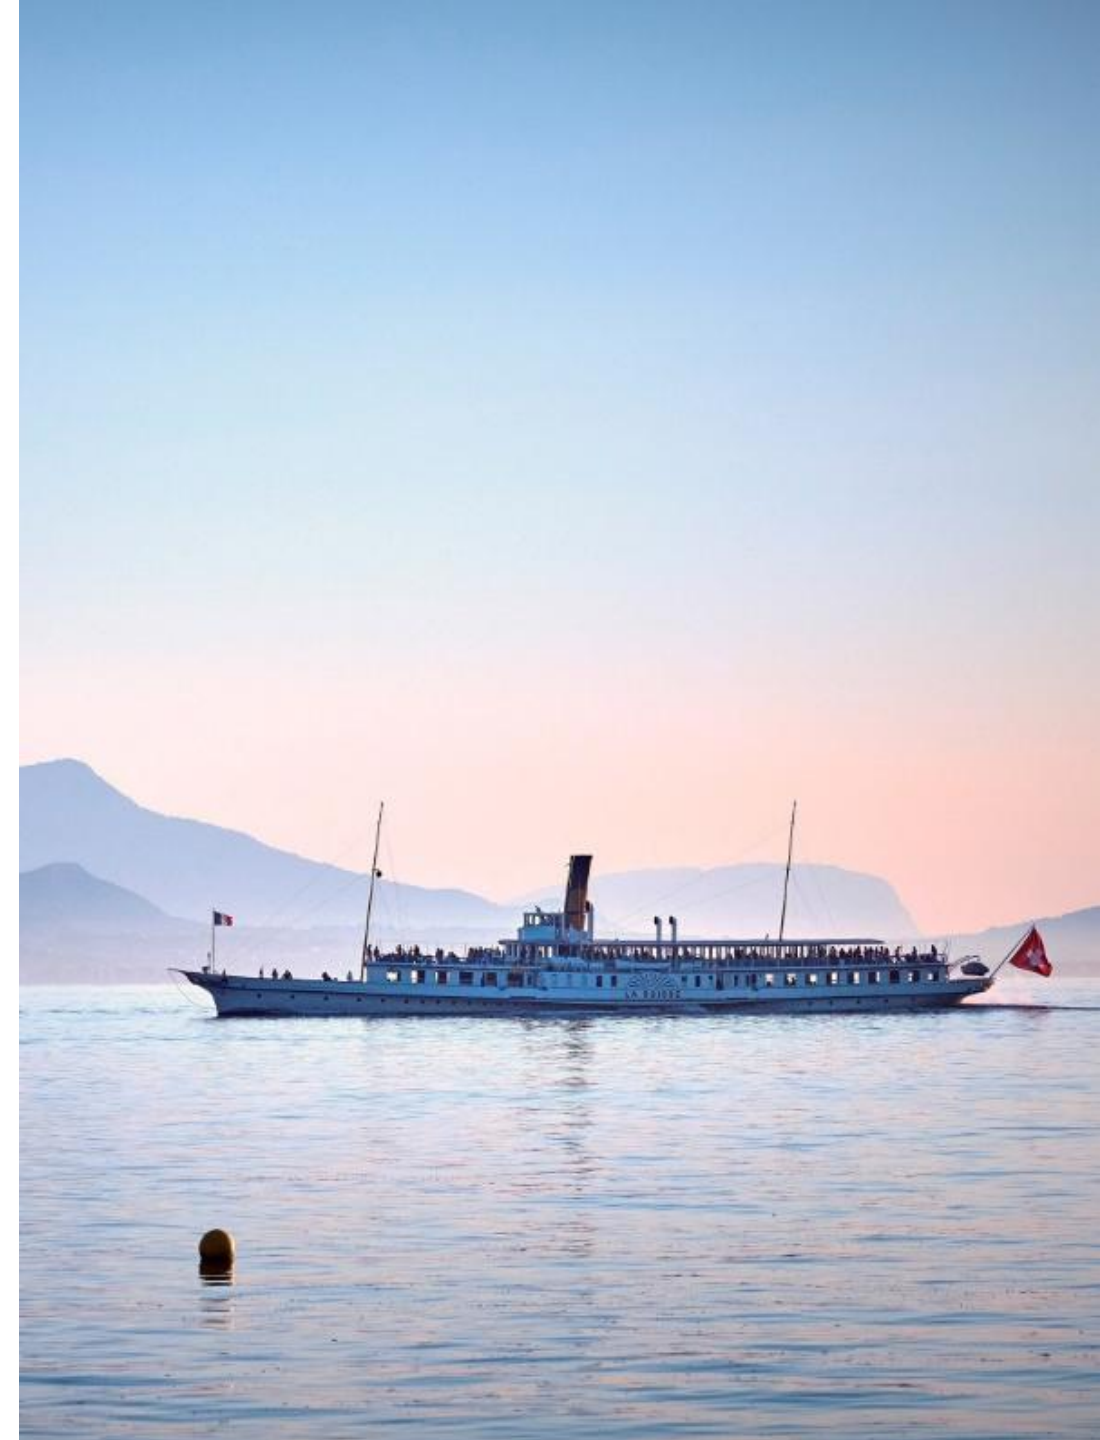

THE SWISS SOCIETY OF CHILD AND ADOLESCENT PSYCHIATRY AND PSYCHOTHERAPY

Switzerland has a pioneering history in child and adolescent psychiatry:

- 1921: Founding of the first child and adolescent psychiatric clinic.
- 1957: Establishment of the Swiss Society (SGKJPP) to promote the field and develop specialist training.

Today, the SGKJPP connects hundreds of members, oversees training across five universities, and ensures the field's international visibility and a strong, multidisciplinary professional community.

We propose organizing ESCAP 2031 at the SUPEA/CHUV in Lausanne.

WHY SWITZERLAND, WHY LAUSANNE?

- Walkable distances in Lausanne
- Reliable and well-organized
- Prime destination for many people
- European Connectivity & Accessibility – Central location with excellent rail/air links (45min to Geneva Airport), walkable city ideal for networking
- Lake-side setting

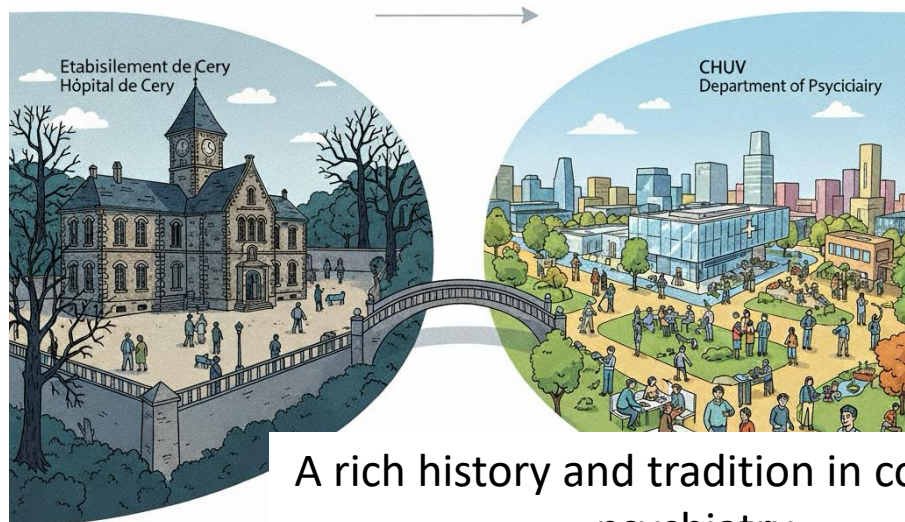

The meeting of Georges Gilles de la Tourette with Lausanne (1901- 1904)....

Il parlait très à sa personne et à son travail. Il y a 14 jours
il a découvert qu'il possédait une très belle voix, commençant
à chanter, faisant des vers, des compositions de musique, adressant
des ordes à Charcot, Lépine etc.

Comme il se faisait beaucoup à cause d'un d'opérette ou lui
arrivait de voyager. Il y a 3 jours est arrivé avec sa femme à
Lucerne. De peu après il fallait faire venir M^r Charcot, le mal
faisant des bébés. Il volait à la table d'hôte la carte de vin.
Le pot de cure dent, etc. En l'après-midi dépensait 1500 fr pour des
~~caresses~~ (des cigares) (200 fr), malgré qu'il n'a jamais fumé!
Trouvait qu'il était devenu très fort, d'une intelligence
merveilleuse, prétendant être le premier de l'école de médecine
la première classe etc.

Sous prétexte qu'il fallait venir ici pour examiner un
malade M^r Charcot l'a amené sans difficulté.

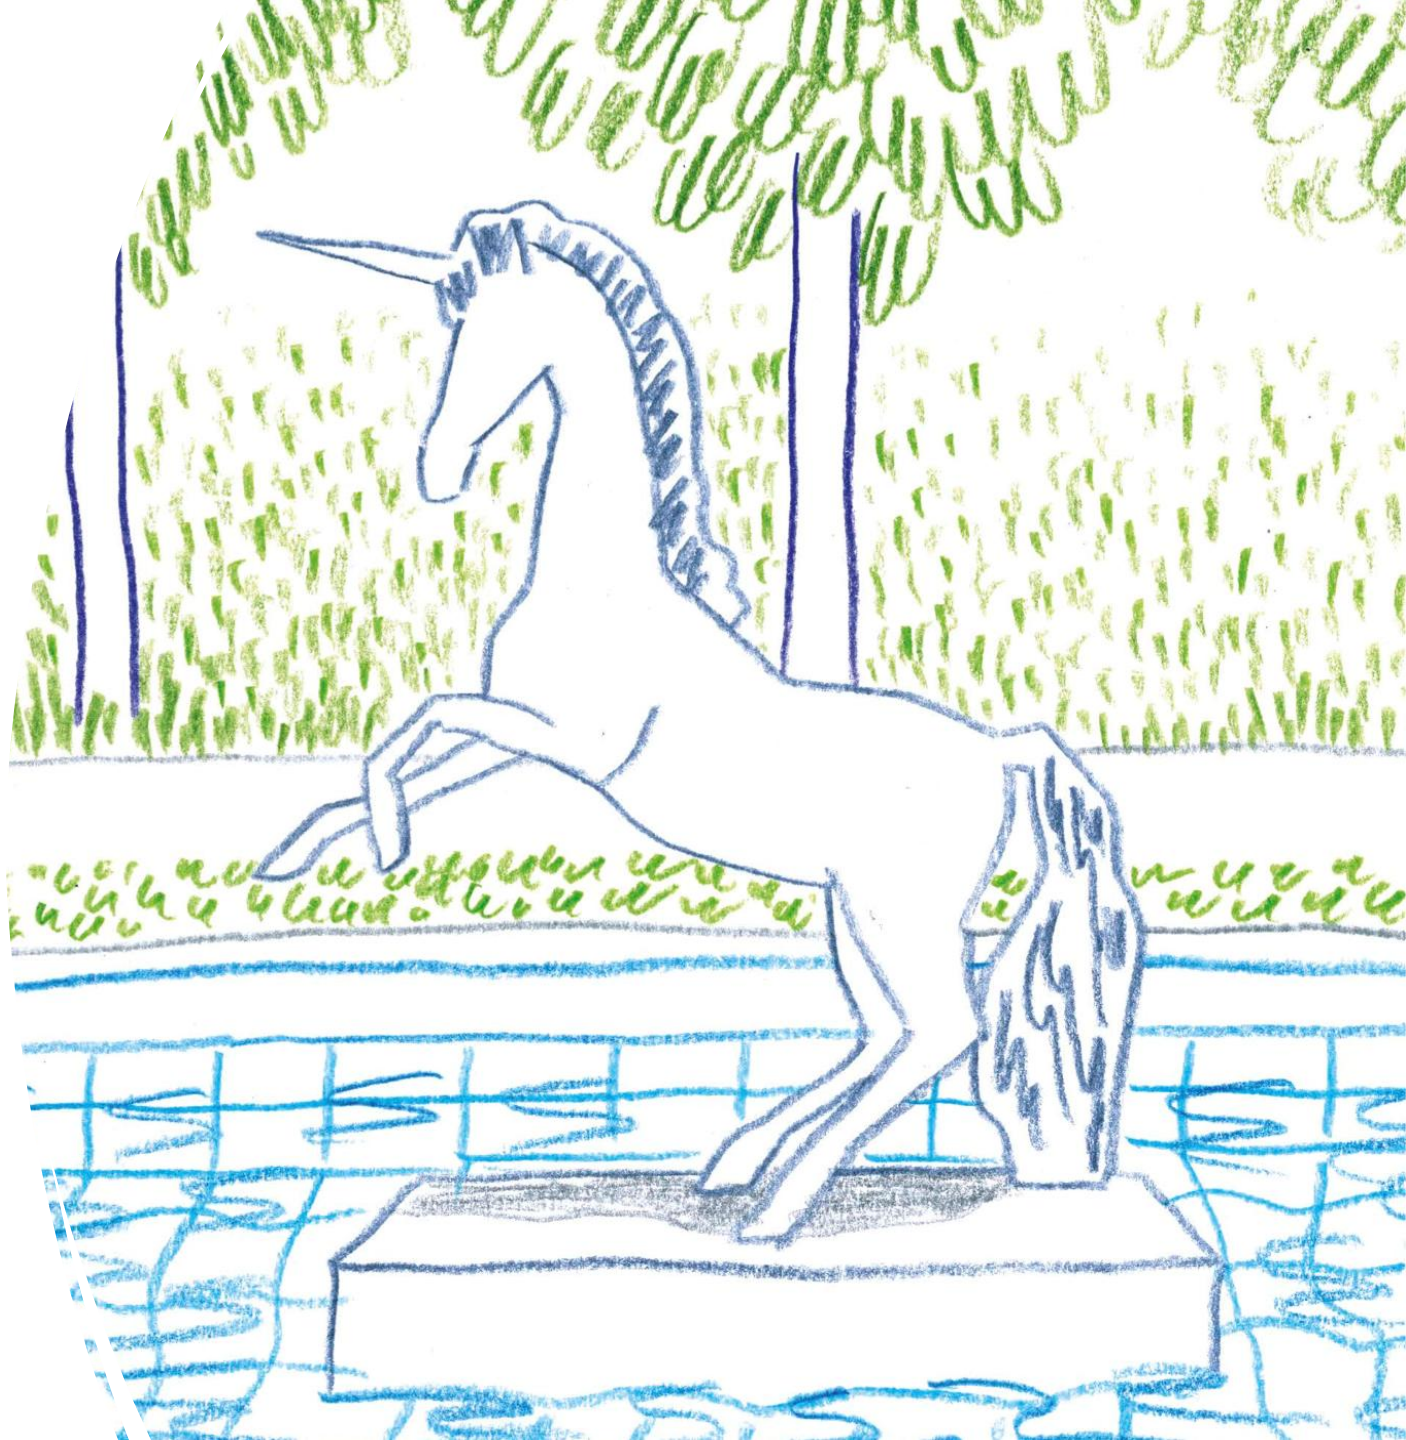

A rich history and tradition in community
psychiatry

What are our values in the Lausanne child and adolescent psychiatry today ?

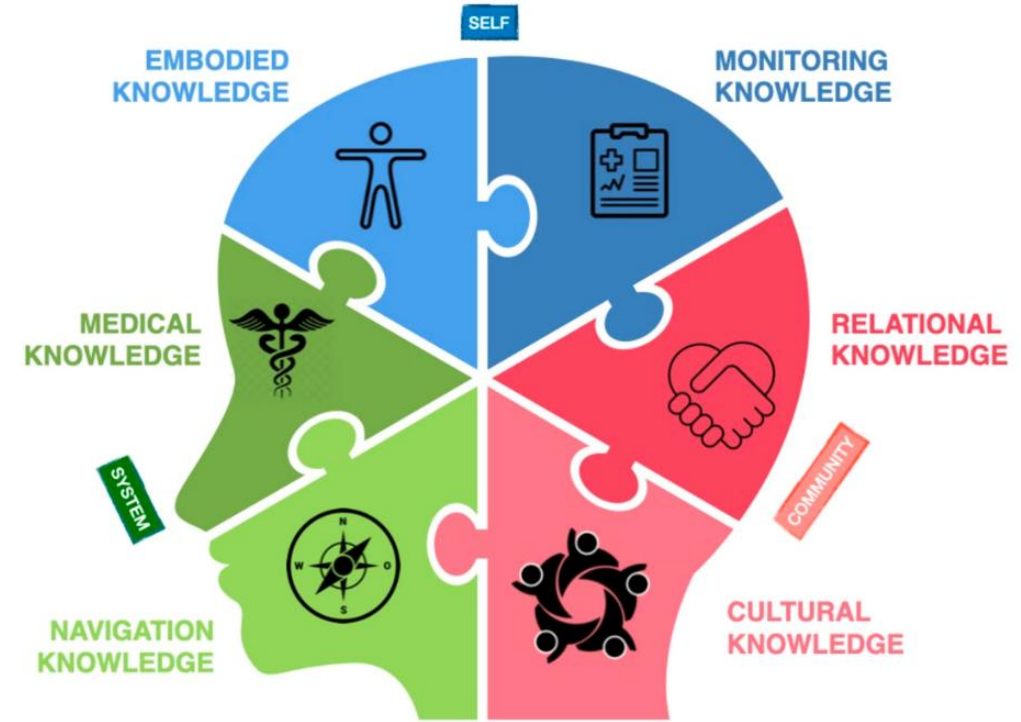

- Prevention and community oriented
- Team up with other actors in the system
- Bring in a national and international view
- Research with clinical impact
- Partnership with young people

Partnership with children, adolescents and families

A Core Theme for the 2031 European Congress in Lausanne

- Shared decision making?
- How to listen to the voice of children and adolescents?
- In which areas should users have more to say (children, adolescents and caregivers)?
- How should their voices be integrated in
 - Clinic
 - Research
 - Education
- Challenges of pair-practionner ?
- How to develop the integration, evaluation and co-production?
- The role of new technologies?

“We can only act in the best interest of the child if children have a meaningful say in decisions that affect their lives.”

A project underway: Maison Enfant et Adolescent Montétan (2029)

diagramme de l'accueil général, transparence et lien visuel entre la pièce de nature et le parc de Valency
