## WELCOME TO ESCAP 2022

We are very happy to welcome you at the 19th Congress of the European Society for Child and Adolescent Psychiatry (ESCAP) in the Maastricht Exhibition and Congress Centre in Maastricht, the Netherlands' most European city, from 19 to 21 June 2022.

The 2022 ESCAP Congress is much more than an event where we discuss the latest developments in our field. It is a renewed meeting between colleagues in times of serious adverse events, such as the COVID-19 pandemic, and an ongoing war on our European soil. The conference theme 'Networks in Child and Adolescent Psychiatry', clearly relates to the resilience that is now shown and needed to provide the best care for the children and adolescents, who are the main victims in the adverse events that we encountered.

During the congress we will strengthen our professional networks, integrating research and clinical practice and by providing educational programs and platforms to discuss policy. Several network perspectives, such as community networks, brain networks, social media networks, and many related topics will be presented by our colleagues and honored key-note speakers. Acknowledging the importance of interaction between professionals, our social program includes a welcome reception and excellent dinner.

We wish you all an inspiring and fruitful meeting!

Welcome to Maastricht!

### MANON HILLEGERS

President of the Congress

### DIMITRIS ANAGNOSTOPOULOS

President of ESCAP

### STEPHAN ELIEZ

President of the ESCAP board congress committee

## CONGRESS TRACKS

### ● BRAIN AND GENETIC NETWORKS

Focus on (basic) neurosciences with special attention to neural networks in the brain studied with MR imaging, EEG or TMS. The interacting network of brain, environmental and genetic factors e.g. epigenetics, polygenic risk scores, GWAS.

### ● SOCIAL AND FAMILY NETWORKS

Focus on networks including peers, families and professionals. Family functioning, parenting and the effect of interventions on the development of psychopathology. The importance and impact of bullying, or support from peers on children and adolescents

### ● EHEALTH NETWORKS

Focus on the importance and challenges that eHealth and other innovative tools (VR, smartphone apps, serious gaming, online CBT etc.) represent and can add to the field of child and adolescent psychiatry. The importance of the online world for youth and professionals to connect and form a network in which mental health care is acceptable and easily available.

### ● DETERMINANTS

Focus on social, psychological and biological determinants of mental illness in children and adolescents. Consider social exclusion, adverse childhood experiences (ACEs), poverty, loneliness, parental mental illness/substance use, intellectual disability. GxE interactions; exposomes.

### ● DEVELOPMENT

Focus on normal brain, psychological, cognitive and emotional development of children and adolescents, including the transitional phase to adulthood. Secure attachment, social function / cognition, executive function.

### ● PREVENTION & INTERVENTION

Focus on initiatives / studies aiming at prevention of mental illness, early intervention and enhancing resilience in children and adolescents. Include transdiagnostic approaches, infant mental health, studies in high-risk populations, and education on mental health at schools.

### ● TREATMENT

Focus on pharmacological and psychotherapeutic forms of treatment, and other (novel) forms of treatment. Also, studies on adverse effects of treatment, or treatment enhancers are relevant for this track. Presented work is preferentially based on novel research, but systematic reviews and scoping reviews may be considered relevant.

### ● COVID-19

SARS-CoV-2, the cause of COVID-19 infections impacts (mental) health and daily life of all. Adverse psychological effects on children and youth appear widespread and are potentially devastating for a considerable portion of the population. Submissions may include effects of the pandemic on families, mental health care, assessments and outcome of psychopathology in youth. In addition, effects and proposals for interventions and improvements of healthcare systems.

### ● YOUNG PROFESSIONALS

One of the most intense and meaningful periods in the lives of professionals is the journey from medical school graduation to board certification in the field of child- and adolescent psychiatry. In this track, educational updates, thoughts about the future of Child- and Adolescent psychiatric services, but also sessions on career development and the identity of CAP are included.

## PROGRAMME COMMITTEE

### LOCAL ORGANISING COMMITTEE

**MANON HILLEGERS**

Congress President ESCAP 2022

Professor and head of department of child and adolescent psychiatry/psychology at Erasmus MC-Sophia children's hospital, Rotterdam

**ARNE POPMA**

Professor at Amsterdam UMC, loc. Vumc, department of child and adolescent psychiatry and psychology

**THERESE VAN AMELSVOORT**

Professor - Personal chair, Psychiatry & Neuropsychology, School for Mental Health and Neuroscience, Fac. Health, Medicine and Life Sciences, Maastricht

**WOUTER STAAL**

Professor of child and adolescent psychiatry, Radboud Medical Center, Nijmegen

### ESCAP BOARD

**DIMITRIS ANAGNOSTOPOULOS**

President of ESCAP

Professor of child and adolescent psychiatry, National and Kapodistrian University of Athens, Greece

**STEPHAN ELIEZ**

Past President of ESCAP, Professor and Director of child psychiatry and special education, University of Geneva, Switzerland

**JOHANNES HEBEBRAND**

ESCAP Academic Division lead and ESCAP Editor-in-Chief, Professor University Duisberg-Essen, Germany

## 5 CONGRESS VENUE AND GENERAL INFORMATION

### CONGRESS VENUE

#### ADDRESS

Maastricht Exhibition & Congress Centre (MECC)  
Forum 100  
6229 GV Maastricht  
The Netherlands

### REGISTRATION AND ASSISTANCE

The registration desk is located in the MECC Maastricht Congress Centre and will be open during congress hours. If you require assistance and you cannot access the registration desk, then please contact the congress secretariat (contact details in this program book).

Our hosts and hostesses help you finding your way and with any other congress related matters.

### BADGE

Your badge signals your admission to the congress and (if applicable) the congress dinner. Please, make sure you have it with you at all times, also during social events.

### PROGRAM CHANGES

General announcements, last-minute changes and updates to the program will be displayed on message boards next to the registration desk in the MECC Maastricht Congress Centre.

### CONGRESS DRESSCODE

Casual

### CONGRESS ROOMS

All rooms are equipped with a PC with USB ports, Microsoft Office, a beamer, screen and sound system. If you need any technical help consult the session chairs or hostesses.

### SPEAKER READY ROOM (ROOM 0.16)

Room 0.16 is specially reserved for speakers who want to work quietly on their presentation. If you have any questions about your presentation or the technical facilities, you can ask both here and at the registration desk.

### CATERING

Lunch and Coffee Breaks are held in the Brightlands Foyer of MECC Maastricht. Outside these breaks, drinks and food can also be bought at Restaurant SAAM located in MECC Maastricht as well.

### WIFI

A free Wi-Fi is available at the MECC Maastricht Congress Centre. You do not need a password to access the network. The Wi-Fi network is only meant for regular browsing and checking email and it is not meant for heavy up and downloading.

## CONGRESS VENUE AND GENERAL INFORMATION

### PRACTICAL INFORMATION

#### TIME ZONE

Time Zone UTC+01:00

#### LANGUAGE

Dutch is the official language in the Netherlands, however English is widely spoken. The official congress language is English and no translation/interpretation services will be offered.

#### EMERGENCY

In emergency situations, you can contact the local police, ambulance service, fire department and other emergency services by calling 112.

#### MEDICAL SERVICES

Should you need to see a doctor or a dentist, we recommend contacting your hotel's reception desk who will direct you to the medical professionals assigned to the hotel. If immediate medical attention is required, call the emergency services at 112. Emergency medical services (including transportation by ambulance) are not free and you will be billed for any services rendered.

#### TRAVEL HEALTH

There are no specific health risks associated with travel to The Netherlands. Ensure coverage by your own health insurance and bring necessary documents on the trip. If you are a European citizen from within EU/EEA, a European Health Insurance Card (EHIC) gives you access to medically necessary, state-provided healthcare during a temporary stay in The Netherlands.

#### TELEPHONES INTERNATIONAL DIALING CODES

The Netherlands: +(31)

#### ELECTRICITY

The standard electrical voltage in the Netherlands is 230 volts AC, 50Hz (hotel bathrooms may also have outlets for 100 volts). The electrical outlets in the Netherlands take two-pronged, round-pin plugs. We recommend that you purchase an adaptor for your electrical equipment prior to your arrival.

#### WATER

Tap water is safe to drink in Maastricht.

#### DISTANCE

Distances in Maastricht are given in kilometers. 1 mile = 1.62 kilometers

#### CURRENCY

The monetary unit is the Euro (EUR). Bank notes are printed in values of €5, €10, €20, €50, €100, €200 and €500; and coins in values of 1, 2, 5, 10, 20 and 50 cent, and €1 and €2. If changing currency, it is recommended to request smaller value notes of €5- €20 as it can be difficult to find establishments to take larger notes. It is advised against taking larger notes as problems regarding counterfeiting mean they are rarely accepted.

Major credit and debit cards (some restrictions apply to American Express and Diners) are accepted in shops, restaurants and hotels, but in some they are not, be sure to check before ordering. Cash can be withdrawn with your Visa, MasterCard, Maestro or Cirrus card at any ATM.

If your country of residence is outside of The Netherlands, you may qualify for a sales-tax refund for purchases. You need to request a form for your refund at the shop when making your purchase.

#### ATMS & CREDIT CARDS

ATMs are widely available throughout Maastricht and most are open 24 hours a day. Most stores accept all major credit cards, however grocery stores, cafes and some restaurants will only accept cash.

#### TIPPING

At restaurants it is possible that you will be charged a cover charge of between 1-3 euros per head and most people choose to round up to the nearest Euro after this, but you can leave more for excellent service. Some restaurants also charge an additional service charge on the bill which can be around 10% in which case you do not need to leave anything additional. These charges should be written on the menu or made clear before ordering. Tipping taxi drivers is unusual but appreciated if they have assisted with luggage. Most people prefer to round up to the closest Euro to avoid handling small change.

#### WEATHER

The average temperature for June is 16 – 24 Celsius. Even though it is summer we do recommend packing some water-proof clothing for the occasional rain shower.

#### TEMPERATURE

Temperature is given in degrees Celsius. Celsius to Fahrenheit: multiply Celsius by 1.8 and add 32 to convert to Fahrenheit.

## CONGRESS VENUE AND GENERAL INFORMATION

### WHAT TO SEE IN MAASTRICHT

Maastricht is one of the oldest cities in the Netherlands, as you will quickly discover when strolling through the historic inner city. Churches, city walls, monumental merchant houses and big squares merge seamlessly with a comprehensive and varied range of shops.

Maastricht, capital city of the province Limburg, has over 120,000 inhabitants and is a real historical tourist city. Yearly it attracts over 3 million tourists to the city. Explore, walk through the inner city and eat one of Limburg's famous pies. Or maybe have a look inside the Saint Peter's Church or visit the limestone mines, Maastricht has a lot to offer. The city is located in the southeast of the Netherlands. The European Union also developed as the result of the Maastricht treaty which was signed in this city in 1992.

What can't you miss out on during a visit to Maastricht? From historical to underground, here are ESCAP'S most popular places of interest:

1. See the Treasures of Saint Servatius and walk around the Vrijthof Square
2. Visit Fort Sint Pieter and the Caves of Maastricht
3. Tour the Basilica of Our Lady
4. Visit the Bonnefanten Museum
5. Walk the Old Town Walls and Hell Gate
6. Visit the Dominicanen Bookshop
7. Visit the Bishop's Mill
8. Take a boat tour on the Meuse river
9. Take a stroll along Wilhelminabrug and St. Servaasbrug
10. Or visit one of the many cafes and restaurants in the city

### RESTAURANTS

Where better to enjoy good food and drinks than in Maastricht? The city lives and breathes the traditional Limburg spirit of relishing all the good things in life; it's in our blood. This means that Maastricht's culinary entrepreneurs love to pull out all the stops – whether you settle down in a traditional pub or dine at a starred restaurant. So, why not join us and dine like a Maastricht local?

Some suggestions:

**Beluga Loves You Restaurant** (1 Michelin star) € \*\*\*\*  
Plein 1992, Maastricht

**Kruisheren Restaurant** € \*\*\*  
Kruisherengang 19, Maastricht

**Restaurant Harry's** € \*\*\*  
Wycker Brugstraat 2, Maastricht

**Le Bon Vivant** € \*\*  
Capucijnenstraat 91, Maastricht

**Restaurant Pieke Potloed** (real Maastricht feeling) € \*\*  
Sporenstraat 5, Maastricht

**Cafe Sjiem** € \*\*  
Sint Pieterstraat 13, Maastricht

## KEYNOTE SPEAKERS

BERNADKA DUBICKA

Policy, politics, and youth mental health - Playing our part in a global challenge

Bernadka Dubicka is a Professor of Child and Adolescent Psychiatry at the Hull and York Medical School, University of York, UK; an Honorary MAHSC Professor, University of Manchester; Editor in Chief of the Journal of Child and Adolescent Mental Health; and a practising psychiatrist in the Greater Manchester Mental Health Trust, UK. She is also treasurer of the Union of European Medical Specialists CAP section, and was the recent chair of child and adolescent psychiatry, at the Royal College of Psychiatrists (RCPsych), UK. Her career has integrated clinical, academic, media and policy expertise to highlight the importance of child mental health, reduce inequalities, and the need for preventative, systems of care based on co-production with young people. Her research interests have focused on increasing access to evidence based interventions for adolescent depression, and she is currently leading a large depression trial (BAY). Recent policy interests include advisory work on the impact of technology and the ecological crisis on mental health, where she represented RCPsych at COP26 in Glasgow.

TOBIAS BANASCHEWSKI

Pharmacotherapy in disruptive disorders

Tobias Banaschewski, MD, PhD, is Professor of Child and Adolescent Psychiatry at the Medical Faculty Mannheim of the University of Heidelberg, Medical Director of the Department of Child and Adolescent Psychiatry of the Central Institute of Mental Health (CIMH), as well as and Deputy Director of the CIMH in Mannheim, Germany. He is also Chairman of the European Network for Hyperkinetic Disorders (EUNETHYDIS) and Member of the European ADHD Guidelines Group. He was President of the German Society of Child and Adolescent Psychiatry, Psychosomatics and Psychotherapy (DGKJP) and Coordinator of the German (S3) Guideline on ADHD. His main research focus is on developmental psychopathology, neuropsychology, neurobiology and psychopharmacology of ADHD, ASD and comorbid disorders. Dr. Banaschewski studied psychology and medicine at the University of Marburg (Germany) and received his training as in Child and Adolescent Psychiatry and Psychotherapy at the University of Göttingen (Germany).

## KEYNOTE SPEAKERS

MARIT SIJBRANDIJ

Addressing trauma and adversity in children and adolescents in global settings

Prof. dr. Sijbrandij is Professor in Clinical Psychology and co-Director of the World Health Organization Collaborative Center for Research and Dissemination of Psychological Interventions at the Vrije Universiteit (VU) University Amsterdam, the Netherlands. Her research is focused on the prevention, early detection and treatment of mental health problems following trauma and adversity in a global context and in vulnerable populations.

GABRIELLE CARLSON

Irritability, Outbursts and Emotion Dysregulation: Trans-diagnostic and Very Impairing

Gabrielle A. Carlson, M.D., professor of Psychiatry and Pediatrics at State University of New York at Stony Brook since 1985, founded and directed the Division of Child and Adolescent Psychiatry until 2013. Dr. Carlson has written over 300 papers and chapters on phenomenology and treatment of child and adolescent depression and bipolar disorder. Her most recent interests involve the impact of mood and behavior dysregulation in children and adolescents.

Dr. Carlson has won numerous awards including the APA's Blanche F. Ittleson Award for research in child and adolescent psychiatry, the Agnes Purcell McGavin Award for Prevention in Child and Adolescent Psychiatry, and AACAP's Virginia Q Anthony Outstanding Woman Leader award. She was also awarded the American Psychopathological Association's Zubin Award, for an her contributions to psychopathology research.

Dr. Carlson is past president of the International Society for Research in Child and Adolescent Psychopathology past chair of the American Academy of Child and Adolescent Psychiatry's (AACAPs) Program Committee. She has also frequently been "the most requested speaker". She is AACAP's President from October 2019 to October 2021.

BRUNO FALISSARD

Did we take the right train in promoting the concept of 'Neurodevelopmental disorders'?

After some initial training in mathematics and fundamental physics (Ecole Polytechnique, Paris), Bruno Falissard engaged in medical studies and specialized in Child and Adolescent Psychiatry in 1991. His PhD was in biostatistics and his post doc in psychometrics and exploratory multidimensional methods. He was assistant professor in child and adolescent psychiatry in 1996-1997, associate professor in Public Health in 1997-2002 and full professor in Public health from 2002. He is at the head of the "Center of Epidemiology and Population Health" (500 members). He is co-author of more than 400 papers and author of 4 books. He has a clinical activity in child and adolescent psychiatry. His personal areas of research are about methodology and epistemology of mental health research. In 2015 he became president of IACAPAP (International Association of Child and Adolescent Psychiatry and Allied Professions, the term ended in 2018) and member of the French Academy of Medicine.

## PROGRAMME AT A GLANCE

## SUNDAY 19 JUNE 2022

09h30 - 10h45	Room	<b>PARALLEL SESSION 1</b>
	0.15	S7 Intergenerational transmission of psychopathology; results from a cross-diagnostic approach
	AUD 2	S12 The role of nutrition and gut microbiota in mental health
	0.9	S14 Psychopathology in children with rare monogenetic syndromes
	0.4	S19 Attachment and trauma: The effects of early intervention in child and adolescent psychiatry
	0.6	S22 International networks in CAP training: I get by with a little help from my friends
	0.14	S24 Tracing the origins from synapse to EEG in monogenetic neurodevelopmental disorders: the brainmodel perspective.
	0.1	S33 Innovative strategies to access mental health care for youth
	0.2	S55 Transdiagnostic ecological momentary interventions targeting specific constructs aimed at improving youth mental health.
	0.8	S64 Callous unemotional and other conduct disorder related traits: Underlying neurobiology
	0.5	S80 Treatment profiles
	AUD 1	S81 Adverse environmental factors
09h30 - 12h30	0.13	<b>WORKSHOP 1 - Autism Spectrum Condition in adolescent natal females</b>
09h30 - 12h30	0.3	<b>WORKSHOP 2 - Workshop on Experience Sampling Methods</b>
09h30 - 12h30	0.7	<b>WORKSHOP 4 - ESCAP YOUTH DIALOGUE - WORKSHOP - let's listen to each other &amp; act wisely!</b>
10h45 - 11h15		Coffee Break & Poster sessions (every day there is a change)
11h15 - 12h30		<b>PARALLEL SESSION 2</b>
	0.15	S3 Pathways from early trauma to mental health outcomes: A Lifespan perspective
	0.14	S5 Transitional age youth mental health: how to improve the continuity of psychiatric care at the CAMHS-AMHS interface?
	0.1	S9 MBT new perspectives
	0.4	S20 Building bridges: the epidemiology of eating disorder symptomatology in childhood and its neurobiological correlates.
	AUD 2	S21 New Research Findings with Clinical Implications from the Amsterdam Transgender Youth Cohort
	0.5	S25 The Two-Way Road - Transactional Processes of Parenting and Child Mental Health Outcomes
	0.6	S34 Early detection of Personality Disorders and Personality Difficulties by assessing impairments in Personality functioning (Criterion A) in self and informant report
	0.2	S47 Anorexia nervosa – recent specific treatment trials using various settings in adolescents
	0.8	S51 CAP training during the pandemic
	0.9	S82 COVID-19 Session 1
	AUD 1	S83 New insight from brain imaging studies
12h30 - 13h30		Lunch
13h30 - 13h45	AUD 1	Opening ceremony
13h45 - 14h30	AUD 1	<b>KEYNOTE LECTURE OF DR. BERNADKA DUBICKA</b>
14h30 - 15h15	AUD 1	<b>KEYNOTE LECTURE OF PROF. GABRIELLE CARLSON</b>
15h15 - 15h45		Coffee break & Poster sessions (every day there is a change)
15h45 - 17h15	AUD 1	Policy debate
17h15 - 18h30	Bright-lands foyer	Welcome reception

## PROGRAMME AT A GLANCE

## MONDAY 20 JUNE 2022

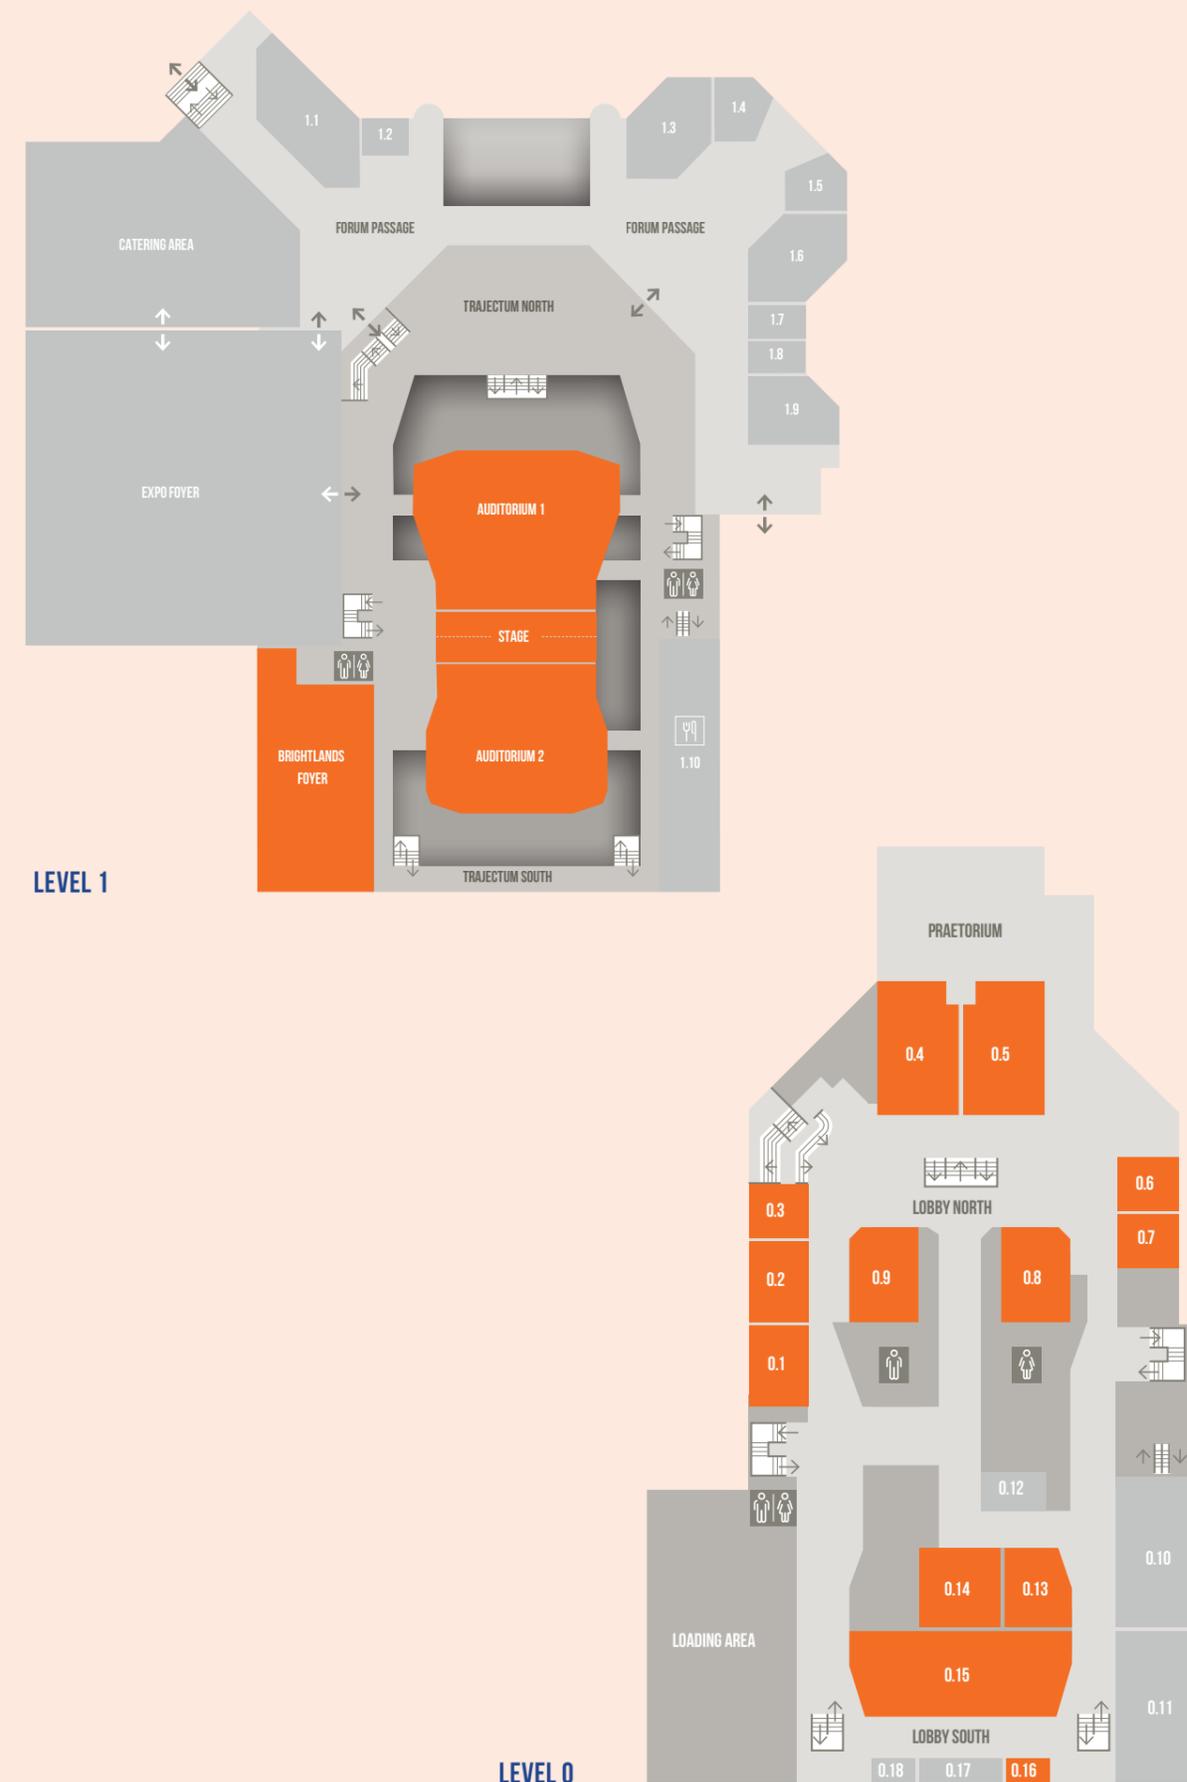

08h30 - 09h15	AUD 1	<b>KEYNOTE LECTURE OF PROF. DR. MARIT SIJBRANDIJ</b>
09h15 - 10h30		<b>PARALLEL SESSION 1</b>
	0.15	S2 Cognitive and functional outcomes in children of parents with severe mental illness across development
	AUD 2	S36 Lifestyle intervention in child psychiatry
	0.4	S39 Complex youth or Complex care? A multiple perspective study on youth with severe and enduring mental health problems
	0.2	S48 Improving the effectiveness of antipsychotic drugs in children with neurodevelopmental disorders: Adverse effects and quality of life
	0.8	S52 Preservation of mental health in minors - Determinants and online approaches
	0.9	S53 Understanding environmental mediators in the presence of genetic vulnerability for psychopathology, the model of 22q11.2 Deletion Syndrome.
	0.14	S60 Findings from the Milestone Project: A European Study on Transition from Child to Adult Mental Health Care
	0.1	S71 The microbiome-gut-brain axis in Anorexia nervosa.
	AUD 1	S84 COVID-19 Session 2
	0.5	S85 Families and Trauma
09h15 - 10h30	0.6	<b>TCS1 TRAINEE CASE SESSION</b>
09h30 - 12h30	0.3	<b>WORKSHOP 3 - Integrating CAP and adult psychiatry in training: taking care of the children together</b>
09h30 - 12h30	0.7	<b>ESCAP Board meeting</b>
10h30 - 11h00		Coffee Break & Poster sessions (every day there is a change)
11h00 - 11h45	AUD 1	<b>STATE OF THE ART LECTURES: PROF. KATHRYN ABEL</b>
	AUD 2	<b>STATE OF THE ART LECTURES: DR. RICCARDO DALLE GRAVE (CANCELED)</b>
11h45 - 12h30	AUD 1	<b>STATE OF THE ART LECTURES: PROF. KERSTIN VON PLESSEN</b>
	AUD 2	<b>STATE OF THE ART LECTURES: PROF. DIANE PURPER-OUAKIL</b>
12h30 - 14h00	0.15	Lunch
14h00 - 14h45	AUD 1	<b>KEYNOTE LECTURE OF DR. BRUNO FALISSARD</b>
14h45 - 16h00		<b>PARALLEL SESSION 2</b>
	0.8	S13 Intergenerational Transmission of Traumatic Stress and Attachment-Related Risk Prenatally and Postnatally: Mechanisms and Implications for Intervention
	AUD 2	S27 MBT Group: Working with Parents from a Mentalization Based Approach
	AUD 1	S35 Child and adolescent mental health care provision in Europe during the COVID-19 pandemic (Clinical Perspective)
	0.14	S38 Looking ahead with the SIGMA-project: Investigating processes at different timescales to better understand adolescent psychopathological development
	0.15	S42 Opportunities of different types of eHealth for treatment and prevention of psychological difficulties including depression.
	0.9	S54 Novel insights into multifactorial mechanisms affecting mental health in neurodevelopmental disorders: The case of 22q11.2 Deletion Syndrome
	0.4	S59 Attention in children with autism spectrum disorders
	0.1	S86 Lifelong learning for professionals
	0.2	S87 Genetics in CAP
	0.5	S107 Organization in CAMHS
	0.7	S63 New neuro-cognitive precursors for tailored prevention of mood disorders in adolescents
	0.6	Industry sponsored session
14h45 - 18h15	0.13	<b>WORKSHOP 5 - Evidence-based trauma treatment for young people: Doing what works!</b>
14h45 - 18h15	0.3	<b>WORKSHOP 6 - Lighthouse MBT-Parenting Programme for reducing risk of maltreatment</b>
16h00 - 16h30		Coffee break & Poster sessions (every day there is a change)
16h30 - 17h15	AUD 1	<b>STATE OF THE ART LECTURES: PROF. BORIS BIRMAHER</b>
	AUD 2	<b>STATE OF THE ART LECTURES: PROF. EVELINE CRONE</b>
	0.15	<b>STATE OF THE ART LECTURES: PROF. ESSI VIDING</b>
17h15 - 18h15		<b>PARALLEL SESSION 3</b>
	AUD 2	S11 ADHD und externalizing disorders in family context – exploring the role of parenting stress and parent child relationship
	0.15	S18 New developments in the assessment and treatment of young people with a clinical high risk state of psychosis
	AUD 1	S61 European perspectives on the impact of the COVID-19 pandemic on the development and course of eating disorders in youth
	0.4	S100 Personalised pharmaceutical treatment
	0.5	S90 Tailored treatment
	0.1	S91 Network of CAMHS
	0.9	S6 Interventions for children of parents with a mental illness
	0.2	S69 Female adolescent conduct disorder: Neurobiological findings and their relation to intervention outcome.
	0.8	S41 Crossing borders: Animal-assisted therapy in child psychiatry (Clinical Perspective)
	0.6	S88 TO BE DETERMINED
	0.14	S89 Genetics
18h15 - 19h00		Time to fresh up
19h00 - 23h00		Congress dinner at Chateau st Gerlach (return busses are available between 22h30 -23h30)

## PROGRAMME AT A GLANCE

## TUESDAY 21 JUNE 2022

09h00 - 10h15	Room	<b>PARALLEL SESSION 1</b>
	AUD 2	S28 Adolescent Suicidality in Different Psychiatric Contexts: Overview and Prevention - Room
	AUD 1	S92 Selfharm/COVID-19
	0.2	S97 Cultural sensitivity in CAMHS
	0.13	S44 Novel technologies to investigate social processes across the lifespan
	0.4	S46 The promise of digital phenotyping to provide a better characterization of behavior in children and adolescents with autism spectrum disorders
	0.15	S58 Mentalizing in systems, organisations and society
	0.5	S65 Recent developments in the treatment of childhood obsessive-compulsive disorder
	0.14	S103 DECENTRALISATION AND COMMUNITY BASED MENTAL HEALTHCARE ACROSS EUROPE
	0.8	S96 Effects on perinatal stress
	0.9	S94 Supportive care for adolescents
	0.1	S93 At risk for psychosis
	0.6	S40 Arts therapies for children and adolescents with psychosocial problems (Clinical Perspective)
09h00 - 12h30	0.3	<b>WORKSHOP 7 Joint training across Paediatrics and CAP to meet the needs of children and young people presenting to hospital with mental health and care crises</b>
10h15 - 11h00	AUD 1	<b>STATE OF THE ART LECTURES: PROF. ANDRE SOURANDER</b>
	AUD 2	<b>STATE OF THE ART LECTURES: DR. JACOB VORSTMAN</b>
	0.15	<b>STATE OF THE ART LECTURES: PROF. DR. MILICA PEJOVIC MILOVANCEVIC</b>
11h00 - 11h30		Coffee Break & Poster sessions (every day there is a change)
11h30 - 12h30		<b>PARALLEL SESSION 2</b>
	AUD 2	S4 Adolescents, substance use disorders and psychiatry: New developments in treatment and research
	0.14	S23 Child psychiatry and somatic comorbidity (Clinical Perspective)
	0.6	S43 Protecting patients from violence in medical institutions - the need for general safeguarding measures
	0.15	S57 Short- and long-term consequences of the death and illness of a parent or other loved one during childhood
	0.8	S66 Moderators and mechanisms of early intervention in Autism Spectrum Disorder
	0.9	S67 Findings from a pragmatic randomised controlled trial of a video-feedback intervention: Improving outcomes for young children
	0.1	S72 Autism Spectrum Disorder in Young Children: from concerns to effective intervention approaches in a Dutch clinical setting
	0.13	S98 Risk factors for personality disorders
	0.4	S62 An update on the aetiology, assessment, and clinical characteristics of avoidant and restrictive food intake disorder
	0.5	S99 Eating disorders
	0.2	S101 Social economic stressors
	AUD 1	S68 Psychological distress and psychosocial care of unaccompanied refugee minors: The impact of trauma, flight and daily stressors on the mental health of young refugees and the quality of life and transcultural competencies of professionals 6 years after the great wave of refugees in Europe.
12h30 - 13h15		Lunch
13h15 - 14h00	AUD 1	<b>KEYNOTE LECTURE OF PROF. TOBIAS BANASCHEWSKI</b>
14h00 - 14h45	AUD 1	<b>STATE OF THE ART LECTURES: PROF. PAUL RAMCHANDANI (CANCELED)</b>
	AUD 2	<b>STATE OF THE ART LECTURES: PROF. ALESSANDRO ZUDDAS</b>
	0.15	<b>STATE OF THE ART LECTURES: ULRICH REININGHAUS (CANCELED)</b>
14h45 - 15h15		Coffee Break & Poster sessions (every day there is a change)
15h15 - 16h30		<b>PARALLEL SESSION 3</b>
	AUD 1	S31 Unpicking the Overlap between Autism and Eating Disorders: Developmental Pathways in Childhood and Adolescence
	0.4	S37 The use of eHealth to decrease mental health problems and promote well-being
	0.15	S45 Adolescent depression: contributions of applied phenomenology and qualitative research
	0.8	S70 Diagnostics and treatment of Children and Adolescents with Trauma Related Disorders

		Pitch Anne Marie Christensen and colleagues on ESCAP 2023 Denmark
		Award ceremony Best ESCAP poster 2022
		The poster jury will announce the winner of the Best ESCAP Poster 2022
		The winner gets the opportunity to give a pitch on the poster

## PROGRAMME AT A GLANCE

## PROGRAMME - SUNDAY 19 JUNE 2022

## 09H30-10H45: PARALLEL SESSION 1

**S7 Intergenerational transmission of psychopathology; results from a cross-diagnostic approach**

## TRACK: DEVELOPMENT

Chair: Annabel Vreeker

Discussant: Anne Duffy

Room: 0.15

## PRESENTATIONS:

09h30-09h45

**#84 Brain structure in those at familial high risk for schizophrenia or bipolar disorder: an ENIGMA-Relatives study**

Neeltje van Haren

*Erasmus University Medical Centre - Sophia Child and Adolescent Psychiatry/Psychology Rotterdam The Netherlands*

09h45-10h00

**#220 Early psychopathological manifestations in the offspring of parents with bipolar disorder**

Michal Goetz

*Charles University, 3rd faculty of Medicine Psychiatry Prague Czech Republic, National Institute of Mental Health Psychiatry Klecany Czech Republic*

10h00-10h15

**#82 Risk factors of mood disorders and predictors of the conversion from major depressive disorder to bipolar disorders in a prospective high risk cohort study**

Martin Preisig

*Lausanne University Hospital and University of Lausanne Department of Psychiatry Lausanne Switzerland*

10h15-10h30

**#71 The Mood and Resilience in Offspring study – understanding, detecting and preventing mood symptoms in children at increased risk for mood disorders**

Annabel Vreeker

*Erasmus MC Child and Adolescent Psychiatry/Psychology Rotterdam The Netherlands*

10h30-10h45

**Questions and Discussion**

All

## 09H30-10H45: PARALLEL SESSION 1

**S12 The role of nutrition and gut microbiota in mental health**

## TRACK: PREVENTION AND INTERVENTION

Chair: Annick Huberts-Bosch

Discussant: Alexander Häge

Room: AUDITORIUM 2

## PRESENTATIONS:

09h30-09h45

**#94 Short-term clinical effects of an elimination diet and healthy diet in children with ADHD: a randomized controlled trial**

Annick Huberts-Bosch

*Karakter Child and Adolescent Psychiatry ADHD Nijmegen The Netherlands*

09h45-10h00

**#97 Probiotics for the treatment of impulsivity: the PROBIA study**

Gara Arteaga-Henríquez

*Vall d'Hebron Hospital Universitari Psychiatry Barcelona Spain, Vall d'Hebron Hospital Universitari Psychiatry, Mental Health and Addiction Research Group, Vall d'Hebron Institut de Recerca (VHIR) Barcelona Spain*

10h00-10h15

**#95 A longitudinal study of the gut microbiota during the first three years of life: links with executive functions at age three**

Yvonne Willemsen

*Radboud University Medical Center Department of Cognitive Neuroscience, Donders Institute for Brain, Cognition and Behavior Nijmegen The Netherlands*

10h15-10h30

**#76 Gastrointestinal symptoms in autistic adults: the physique or the psyche? - Novel insights into determinants from a large Dutch population sample**

Eva Warreman

*Leiden University Medical Center LUMC Curium, Academic Center for Child- and Adolescent Psychiatry Oegstgeest The Netherlands*

10h30-10h45

**Questions and Discussion**

All

## PROGRAMME - SUNDAY 19 JUNE 2022

## 09H30-10H45: PARALLEL SESSION 1

**S14 Psychopathology in children with rare monogenetic syndromes**

## TRACK: DETERMINANTS

Chair: Pieter de Nijs

Co-chair: Leontine ten Hoopen

Discussant: Sabine Mous

Room: 0.9

## PRESENTATIONS:

09h30-09h45

**#264 Internalizing problems in children with Tuberous Sclerosis Complex (TSC)**

Lotte Feith

*Erasmus MC ENCORE Expertise Centre for Neurodevelopmental Disorders Rotterdam The Netherlands, Erasmus MC Department of Child- and Adolescent Psychiatry and Psychology Rotterdam The Netherlands*

09h45-10h00

**#361 Child characteristics associated with parental stress and child/parental quality of life in Angelman syndrome**

Doesjka Hagenaar

*Erasmus MC - Sophia Children's Hospital ENCORE Expertise Centre for Neurodevelopmental Disorders & Department of Child- and Adolescent Psychiatry and Psychology & Department of Paediatrics Rotterdam The Netherlands*

10h00-10h15

**#468 Autism symptoms in children and young adults with Fragile X Syndrome, Angelman Syndrome, Tuberous Sclerosis Complex and Neurofibromatosis Type 1: a cross-syndrome comparison**

Kyra Lubbers

*Erasmus MC Sophia Children's Hospital ENCORE Expertise Center for Neurodevelopmental Disorders Rotterdam The Netherlands, Erasmus MC Sophia Children's Hospital Child and Adolescent Psychiatry/Psychology Rotterdam The Netherlands*

10h15-10h30

**#263 The prevalence and combined measurement prediction of ASD in children with tuberous sclerosis complex (TSC)**

Chantal Straver

*Erasmus MC - ENCORE Expertise Centre for Neurodevelopmental Disorders Department of Child- and Adolescent Psychiatry and Psychology, Rotterdam The Netherlands*

10h30-10h45

**Questions and Discussion**

All

## 09H30-10H45: PARALLEL SESSION 1

**S19 Attachment and trauma: The effects of early intervention in child and adolescent psychiatry**

## TRACK: SOCIAL AND FAMILY NETWORKS

Chair: Manuela Gander

Discussant: Michael Kaess

Room: 0.4

## PRESENTATIONS:

09h30-09h45

**#120 The importance of unresolved attachment in adolescents with psychiatric disorders and its implications for treatment**

Manuela Gander

*Tirol Kliniken Child and Adolescent Psychiatry Hall in Tirol Austria*

09h45-10h00

**#160 Attachment patterns and attachment-based affect regulation in mothers of a psychiatric parent-child ward**

Ann-Christin Jahnke-Majorkovits

*Kinder-und Jugendpsychiatrie Hall Child and Adolescent Psychiatry Hall in Tirol Austria, University hospital Child and Adolescent Psychiatry Innsbruck Austria*

10h00-10h15

**#124 Mothers' and children's perspectives on children's threat experience and trauma symptoms**

Silvia Exenberger

*Kinder-und Jugendpsychiatrie Hall Child and Adolescent Psychiatry Hall in Tirol Austria, University hospital Child and Adolescent Psychiatry Innsbruck Austria*

10h15-10h30

**#127 Non-suicidal self-injury and attachment trauma in adolescents with psychiatric disorders: A treatment approach**

Martin Fuchs

*Medical University Innsbruck Tirol Kliniken, Child and Adolescent Psychiatry Hall i. T. Austria*

10h30-10h45

**Questions and Discussion**

All

## PROGRAMME - SUNDAY 19 JUNE 2022

## 09H30-10H45: PARALLEL SESSION 1

**S22 International networks in CAP training: I get by with a little help from my friends**

TRACK: YOUNG PROFESSIONALS

Chair: Peter Deschamps

Discussant: Enikő Kiss

Room: 0.6

## PRESENTATIONS:

09h30-09h45

**#345 An introductory overview of the history and present international training activities in CAP**

Carmen Schroder

*Strasbourg University and University Hospitals Department of Child and Adolescent Psychiatry Strasbourg France, UEMS Section for Child and Adolescent Psychiatry Strasbourg France*

09h45-10h00

**#228 The UEMS-CAP Curriculum Framework: something old, something new, something for you**

Thorsten Schumann

*Psychiatry Center, Region of Southern Denmark Department of Child and Adolescent Psychiatry Southern Jutland Aabenraa Denmark, Union of Medical Specialists in Europe (UEMS) Section of Adolescent Psychiatry Brussels Belgium*

10h00-10h15

**#158 International examination and assessment for CAP trainees: a bumpy road uphill**

Krisztina Kapornai

*University of Szeged Child and Adolescent Psychiatry Department Szeged Hungary*

10h15-10h30

**#139 An international community of practice for CAP training – a Delphi study**

Peter Deschamps

*UMC Utrecht Psychiatry Utrecht The Netherlands*

10h30-10h45:

**Questions and Discussion**

All

## 09H30-10H45: PARALLEL SESSION 1

**S24 Tracing the origins from synapse to EEG in monogenetic neurodevelopmental disorders: the brainmodel perspective.**

TRACK: BRAIN AND GENETIC NETWORKS

Chair: Hilgo Bruining

Discussant: Arne Popma

Room: 0.14

## PRESENTATIONS:

09h30-09h45

**#493 Human neurons in a dish: Cellular phenotyping of patients with neurodevelopmental disorders**

Maaïke van Boven

*Center for Neurogenomics and Cognitive Research (CNCR), Vrije Universiteit (VU) Dept. of Functional Genomics Amsterdam The Netherlands*

09h45-10h00

**#537 Bumetanide as a mechanism-based treatment for neurodevelopmental disorders**

Lisa Geertjens

*Amsterdam UMC Child psychiatry Amsterdam The Netherlands*

10h00-10h15

**#377 Identification and validation of EEG biomarkers in the Subject-Specific Bumetanide Treatment of Neurodevelopmental Disorders using The Neurophysiological Biomarker Toolbox**

Shilpa Anand

*Amsterdam UMC Department of Child and Adolescent Psychiatry & Psychosocial Care Amsterdam The Netherlands*

10h15-10h30

**#385 EEG-based Predictions of Repetitive Behavioral Improvement in a Randomized Controlled Trial “Bumetanide in Autism Spectrum Disorder”**

Gianina Cristian

*Amsterdam University Medical Centre, Child and Adolescent Psychiatry, N=You Center for Neurodevelopmental Disorders, Amsterdam, The Netherlands, Radboud University Medical Centre, Health Evidence, Health Technology Assessment, Nijmegen, The Netherlands*

10h30-10h45

**Questions and Discussion**

All

## PROGRAMME - SUNDAY 19 JUNE 2022

## 09H30-10H45: PARALLEL SESSION 1

**S33 Innovative strategies to access mental health care for youth**

TRACK: PREVENTION AND INTERVENTION

Chair: Anna Liso Navarro

Discussant: Anne Edan

Room: 0.1

## PRESENTATIONS:

09h30-09h45

**#167 Prevention after traumatic exposition in schools: clinical perspectives of intervention**

Guillemette Bouard

*Office Médico Pédagogique Department of Public Instruction Geneva Switzerland*

09h45-10h00

**#328 Writing your way out of loneliness**

Claire Prével

*Hôpitaux Universitaire Genève/Children Action Service de Psychiatrie de l'enfant et de l'adolescent/Malattie Geneva Switzerland*

10h00-10h15

**#351 Youth suicide prevention on YouTube**

Adriana Radulescu

*Hôpitaux Universitaires de Genève Département de la Femme, de l'Enfant et de l'Adolescent Genève Switzerland*

10h15-10h30

**#295 Geneva Model: first line mental health care for adolescents**

Marian Garcia Iglesias

*Département Instruction Publique Office Médiico-Pédagogique Geneva Switzerland*

10h30-10h45

**Questions and Discussion**

All

## 09H30-10H45: PARALLEL SESSION 1

**S55 Transdiagnostic ecological momentary interventions targeting specific constructs aimed at improving youth mental health.**

TRACK: PREVENTION AND INTERVENTION

Chair: Mary Rose Postma

Discussant: Thérèse van Amelsvoort

Room: 0.2

## PRESENTATIONS:

09h30-09h45

**#299 The SELFIE-Study: a Novel Self-esteem Ecological Momentary Intervention in Traumatized Youth**

Maud Daemen

*Maastricht University Psychiatry & Neuropsychology Maastricht The Netherlands*

09h45-10h00

**#288 A realist evaluation of a transdiagnostic ecological momentary intervention for improving self-esteem (SELFIE) in youth exposed to childhood adversity**

Mary Rose Postma

*Maastricht University Department of Psychiatry and Neuropsychology, School for Mental Health and Neuroscience Maastricht The Netherlands, Mondriaan - Maastricht The Netherlands*

10h00-10h15

**#439 An ecological momentary compassion-focused intervention for enhancing resilience in help-seeking youths**

Anita Schick

*Central Institute of Mental Health Public Mental Health Mannheim Germany*

10h15-10h30

**#372 Efficacy of Acceptance and Commitment Therapy in Daily Life (ACT-DL) in Early psychosis: Findings from a Multi-Centre Randomized Controlled Trial**

Thomas Vaessen

*University of Twente Psychology, Health & Technology Enschede The Netherlands, KU Leuven Neurosciences Leuven Belgium*

10h30-10h45

**Questions and Discussion**

All

## PROGRAMME - SUNDAY 19 JUNE 2022

## 09H30-10H45: PARALLEL SESSION 1

**S64 Callous unemotional and other conduct disorder related traits: Underlying neurobiology**

TRACK: BRAIN AND GENETIC NETWORKS

Chair: Christine M. Freitag

Discussant: Christina Stadler

Room: 0.8

## PRESENTATIONS:

09h30-09h45

**#411 Brain Response to Threatening Faces in Youths with Conduct Disorder: Effects of Sex and Variation in Callous-Unemotional Traits**

Stephane De Brito

*University of Birmingham School of Psychology and Centre for Human Brain Health BIRMINGHAM United Kingdom*

09h45-10h00

**#450 Testing the Ecophenotype Model: Cortical Structure Alterations in Conduct Disorder With Versus Without Childhood Maltreatment**

Marlene Staginnus

*University of Bath Department of Psychology Bath United Kingdom*

10h00-10h15

**#405 Genetic networks underlying callous-unemotional and aggressive behaviour**

Christine Freitag

*University Hospital Frankfurt, Goethe University Child and Adolescent Psychiatry, Psychosomatics and Psychotherapy Frankfurt Germany*

10h15-10h30

**#416 Endocrinological stress response is differentially related aggressive behaviour and callous unemotional traits**

David Jitten

*Frankfurt University Hospital, Goethe University*

10h30-10h45

**Questions and Discussion**

All

## 09H30-10H45: PARALLEL SESSION 1

**S80 Treatment profiles**

TRACK: DETERMINANTS

Chair and discussant: Enikő Kiss

Room: 0.5

## PRESENTATIONS:

09h30-09h45

**#31 Personality Risk Profiles and Adolescent Alcohol, Cannabis and Tobacco Use – a Panel Network Approach**

René Freichel

*University of Amsterdam Department of Psychology Amsterdam The Netherlands*

09h45-10h00

**#1 Mapping the UASC's psychosocial needs and difficulties, and provision of MHPSS services in Greece**

Ioanna Giannopoulou

*National and Kapodistrian University of Athens, School of Health Sciences Department of Medicine Athens Greece*

10h00-10h15

#

10h15-10h30

**#6 Psychotropic Drug Use Following a Terror Attack: An Interrupted Time Series Analysis Using Data from the French National Health Insurance Information System**

Alexis Revet

*Toulouse University Hospital Department of Child and Adolescent Psychiatry Toulouse France*

10h30-10h45

**Questions and Discussion**

All

## PROGRAMME - SUNDAY 19 JUNE 2022

## 09H30-10H45: PARALLEL SESSION 1

**S81 - Adverse environmental factors**

TRACK: DETERMINANTS

Chair &amp; Discussant: Kostas Konstantinos Kotsis

Room: AUDITORIUM 1

## PRESENTATIONS:

09h30-09h45

**#11 Comparison of social atom diagram traits in Children and adolescents of age 7-17 having psychiatric disorders with general population**

Kamilė Plėšnytė

*Vilnius university hospital Santaros Klinikos Child development center Vilnius Lithuania*

09h45-10h00

**#64 Specificities of Consensual and Non-consensual Sexting Behaviors in Adolescence**

Ricardo Barroso

*University of Trás-os-Montes and Alto Douro Psychology Vila Real Portugal, University of Porto Faculty of Psychology Porto Portugal*

10h00-10h15

**#53 Cyberbullying in adolescent girls concerning social media attitude**

Ayse Rodopman Arman

*Marmara University Faculty of Medicine Child Psychiatry Istanbul Turkey*

10h15-10h30

**#389 The evaluation of sociodemographic, developmental, psychological and psychosocial differences of sexually abused youth in terms of causality**

Akin Tahıllıoğlu

*Çiğli Education and Research Hospital Child and Adolescent Psychiatry İzmir Turkey*

10h30-10h45

**Questions and Discussion**

All

## WORKSHOPS SUNDAY 19 JUNE 2022

**09H30-12H30: W1 AUTISM SPECTRUM CONDITION IN ADOLESCENT NATAL FEMALES**

Abstract ID #205

TRACK: DEVELOPMENT

Presenting: Myooran Canagaratnam and Aleksandra Szczap

Room: 0.13

**09H30-12H30: W2 WORKSHOP ON EXPERIENCE SAMPLING METHODS**

Abstract ID #210

TRACK: EHEALTH NETWORKS

Presenting: Fleur Helmink

Room: 0.3

**09H30-12H30: W4 ESCAP YOUTH DIALOGUE - WORKSHOP - LET'S LISTEN TO EACH OTHER & ACT WISELY!**

Abstract ID #229

TRACK: PREVENTION AND INTERVENTION

Presenting: Matthias Köster

Room: 0.7

Limited seats available

## PROGRAMME - SUNDAY 19 JUNE 2022

## 11H15-12H30: PARALLEL SESSION 2

**S3 Pathways from early trauma to mental health outcomes: A Lifespan perspective**

TRACK: DETERMINANTS

Chair : Jala Rizeq

Discussant: Helen Minnis

Room: 0.15

## PRESENTATIONS:

11h15-11h30

**#543 The expected and the unexpected in recovery and development after abuse and neglect: The role of early foster carer commitment on young children's symptoms of attachment disorders and mental health problems over time**

Fiona Turner

*University of Glasgow Institute of Health and Wellbeing Glasgow United Kingdom*

11h30-11h45

**#129 Can childhood maltreatment cause ADHD? A systematic review of prospective longitudinal studies using the Bradford-Hill criteria**

Evi Bali

*University Of Glasgow Institute of Health and Wellbeing Glasgow United Kingdom*

11h45-12h00

**#133 The 'Double Jeopardy Model': Can we improve prediction of children and young people at clinical-high-risk of poor mental health outcomes**

Ruchika Gajwani

*University of Glasgow Mental Health and Wellbeing Glasgow United Kingdom*

12h00-12h15

**#80 Pathways from childhood maltreatment to adult mental health**

Jala Rizeq

*University of Glasgow institute of health and wellbeing Glasgow United Kingdom*

12h15-12h30

**Questions and Discussion**

All

## 11H15-12H30: PARALLEL SESSION 2

**S5 Transitional age youth mental health: how to improve the continuity of psychiatric care at the CAMHS-AMHS interface?**

TRACK: DETERMINANTS

Chair &amp; discussant: Enikő Kiss

Room: 0.14

## PRESENTATIONS:

11h15-11h30

**#595 From tracking transitions to managing transitional care: lessons from TRACK and MILESTONE**

Helena Tuomainen

*Warwick Medical School, University of Warwick Division of Mental Health & Wellbeing Coventry United Kingdom*

11h30-11h45

**#354 Current recommendations regarding transition from child and adolescent mental health services (CAMHS) to adult mental health services (AMHS)**

Joana Reis

*Hôpital Erasme Child and Adolescent Psychiatry Brussels Belgium, Université Libre de Bruxelles Faculty of Medicine Brussels Belgium*

11h45-12h00

**#212 Trajectories of Psychiatric Care in an Outpatient Program Designed for Transitional Age Youth in French-speaking Belgium**

Simone Marchini

*Hôpital Universitaire Des Enfants Reine Fabiola Child and Adolescent Psychiatry Brussels Belgium, Université Libre de Bruxelles Faculty of Medicine Brussels Belgium*

12h00-12h15

**#208 The benefits and challenges of involving young people with lived experience in large scale international research in mental health**

Cathy Street

*Warwick Medical School, University of Warwick Division of Health Sciences Coventry United Kingdom*

12h15-12h30

**Questions and Discussion**

All

## PROGRAMME - SUNDAY 19 JUNE 2022

## 11H15-12H30: PARALLEL SESSION 2

**S9 MBT new perspectives**

TRACK: PREVENTION AND INTERVENTION

Chair: Svenja Taubner

Discussant: Dickon Bevington

Room: 0.1

## PRESENTATIONS:

11h15-11h30

**#83 Reflective functioning and empathy: associations with externalizing behaviors in typical developing and antisocial adolescents**

Larisa Morosan

*University of Geneva FPSE Geneva Switzerland*

11h30-11h45

**#100 Emotion Recognition and Mentalizing in adolescents with ADHD.**

Elena Poznyak

*University of Geneva Faculty of Psychology and Educational Sciences Geneva Switzerland*

11h45-12h00

**#592 Mentalization-based treatment for adolescents with Conduct Disorder (MBT-CD): a feasibility study**

Sophie Hauschild

*University Hospital Heidelberg Institute for Psychosocial Prevention Heidelberg Germany*

12h00-12h15

**#591 Change of mentalization in relation with specific interventions within mentalization-based psychotherapy of adolescents with conduct disorder – a comparative case study**

Sophie Hauschild

*University Hospital Heidelberg Institute for Psychosocial Prevention Heidelberg Germany*

12h15-12h30

**Questions and Discussion**

All

## 11H15-12H30: PARALLEL SESSION 2

**S20 Building bridges: the epidemiology of eating disorder symptomatology in childhood and its neurobiological correlates.**

TRACK: DETERMINANTS

Chair: Katrien Bracké

Discussant: Gwen Dieleman

Room: 0.4

## PRESENTATIONS:

11h15-11h30

**#466 The longitudinal relationship between set-shifting at four years of age and eating disorder related features at nine years of age in the general pediatric population**

Cathelijne Steegers

*Erasmus Medical Center - Sophia Children's hospital Department of child and adolescent psychiatry/psychology, Rotterdam The Netherlands, Stichting Yulius Child and adolescent psychiatry - Outpatient clinic (poli intensief ZHZ) Dordrecht The Netherlands*

11h30-11h45

**#524 The association between restrictive eating disorder features and brain morphology in the general pediatric population**

Marlies Deen

*Erasmus MC Child & adolescent psychiatry Rotterdam The Netherlands*

11h45-12h00

**#159 Characterising Avoidant Restrictive Food Intake Disorder in Children: a Population-Based Approach**

Michelle Sader

*University of Aberdeen Medicine, Medical Sciences and Nutrition Aberdeen United Kingdom*

12h00-12h15

**#447 Unravelling the neurobiology of anorexia nervosa: the predictive value of neuroimaging measures on the differential course of anorexia nervosa and identifying the underlying brain networks**

Katrien Bracké

*Erasmus MC Child and Adolescent Psychiatry Rotterdam The Netherlands*

12h15-12h30

**Questions and Discussion**

All

## PROGRAMME - SUNDAY 19 JUNE 2022

## 11H15-12:30: PARALLEL SESSION 2

**S21 New Research Findings with Clinical Implications from the Amsterdam Transgender Youth Cohort**

TRACK: DEVELOPMENT

Chair: Annelou de Vries

Discussant: Roy van Vlerken

Room: AUDITORIUM 2

## PRESENTATIONS:

11h15-11h30

**#281 Decision Making Capacity in Transgender Adolescents**

Annelou L.C. de Vries

*Amsterdam University Medical Centers, Location VUmc child and**adolescent psychiatry, center of expertise on gender dysphoria**Amsterdam The Netherlands*

11h30-11h45

**#215 On the Intersection of Autism and Transgender Identities: A Long-Term Follow-up of Autistic Transgender Children and Adolescents into Young Adulthood**

Anna van der Miesen

*Skåne Child & Adolescent Psychiatry - Malmö Sweden*

11h45-12h00

**#596 Mental Health Evaluation of Early Medical Treatment for Gender Dysphoria in Adolescence: a Long Term Follow-up Study into Adulthood**

Marijn Arnoldussen

*Amsterdam UMC, location VUmc Children and Adolescent Psychiatry,**Center of Expertise on Gender Dysphoria Amsterdam The Netherlands*

12h00-12h15

**#276 Evaluation of Early Medical Treatment for Gender Dysphoria in Adolescence: a Long Term Follow-up Study into Adulthood**

Frédérique de Rooy

*Amsterdam UMC, location VUmc Child and adolescent psychiatry**Amsterdam The Netherlands*

12h15-12h30

**Questions and Discussion**

All

## 11H15-12:30: PARALLEL SESSION 2

**S25 The Two-Way Road - Transactional Processes of Parenting and Child Mental Health Outcomes**

TRACK: SOCIAL AND FAMILY NETWORKS

Chair: Marie-Louise Kullberg

Discussant: Bernet Elzinga

Room: 0.5

## PRESENTATIONS:

11h15-11h27

**#149 Unravelling bidirectional associations between harsh parental discipline and offspring emotional and behavioural problems: Triangulating findings across three longitudinal models**

Marie-Louise Kullberg

*Leiden University Clinical Psychology Leiden The Netherlands*

11h27-11h39

**#189 An exploration of intergenerational transmission of parenting and attachment related processes – a three generation study in a high risk sample**

Esther Mesman

*Erasmus MC Sophia Child and adolescent psychiatry/psychology**Rotterdam The Netherlands*

11h39-11h51

**#198 "Covid-19 is dangerous": The Role of Parental Verbal Threat Information on Children's Fear of Covid-19**

Cosima Nimphy

*Leiden University Clinical Psychology Leiden The Netherlands*

11h51-12h03

**#157 The impact of COVID-19 on adolescents' daily lives – and the role of the parents**

Robin Achterhof

*KU Leuven Center for Contextual Psychiatry Leuven Belgium*

12h03-12h15

**#341 The moderating effect of mind-mindedness on parenting skills in Parent-Child Interaction Therapy**

Merlijn Meynen

*Amsterdam UMC Child and Adolescent Psychiatry Amsterdam The**Netherlands*

12h15-12h30

**Questions and Discussion**

All

## PROGRAMME - SUNDAY 19 JUNE 2022

## 11H15-12:30: PARALLEL SESSION 2

**S34 Early detection of Personality Disorders and Personality Difficulties by assessing impairments in Personality functioning (Criterion A) in self and informant report**

TRACK: PREVENTION AND INTERVENTION

Chair: Kirstin Goth

Discussant: Eva Moehler

Room: 0.6

## PRESENTATIONS:

11h15-11h30

**#407 Levels of Personality functioning in self-report and informant report (LoPF-Q 6-18 Parent) in school and clinic samples: Differences between 6-12 and 13-18 year olds in impairment levels and in relation to categorical personality disorder criteria and in different diagnostic groups**

Marc Birkhölzer

*University Psychiatric Clinic Basel Juvenile Forensic Department Basel**Switzerland*

11h30-11h45

**#528 Personality functioning assessed by therapist report (LoPF-Q Therap) compared to self-report and parent-report as outcome variable in a pre-post therapy setting (START-Kids)**

Andrea Dixius

*SHG Clinics Child and Adolescent Psychiatry Saarbücken Germany*

11h45-12h00

**#446 Personality structure of children and adolescents assessed with age-specific questionnaires for the OPD-CA2 concept: Comparison of self and parent report and relation to psychopathology in clinic and school populations**

Lea Sarrar

*MSB Medical School Berlin Department of Psychology Berlin Germany*

12h00-12h15

**#225 Self-reported personality functioning in Russian school and clinic samples (LoPF-Q 12-18 Russian)**

Natalia Zvereva

*Mental Health Research Center Department of Clinical Psychology**Moscow Russia, Moscow State University of Psychology and Education**Department of neuro- and pathopsychology of development Moscow**Russia*

12h15-12h30

**Questions and Discussion**

All

## 11H15-12:30: PARALLEL SESSION 2

**S47 Anorexia nervosa – recent specific treatment trials using various settings in adolescents**

TRACK: TREATMENT

Chair: Andreas Karwautz

Discussant: Beate Herpertz-Dahlmann

Room: 0.2

## PRESENTATIONS:

11h15-11h30

**#478 The cognitive interpersonal model for adolescents and their carers**

Janet Treasure

*Kings College London EDU London United Kingdom*

11h30-11h45

**#333 The Maudsley model of anorexia nervosa treatment for adolescents and young adults (MANTRa): A promising new treatment option for anorexia nervosa in adolescents**

Andrea Schneider

*Medical University of Vienna Department of Child and Adolescent**Psychiatry Vienna Austria*

11h45-12h00

**#352 Short-Term Outcome of Inpatient Treatment for Adolescents with Anorexia Nervosa Using DSM-5 Remission Criteria**

Dunja Mairhofer

*Medical University of Vienna Child and Adolescent Psychiatry Vienna**Austria*

12h00-12h15

**#503 Day patient treatment and home treatment as alternatives to inpatient treatment**

Brigitte Dahmen

*RWTH Aachen University Department of Child and Adolescent**Psychiatry, Psychosomatics and Psychotherapy Aachen Germany*

12h15-12h30

**Questions and Discussion**

All

## PROGRAMME - SUNDAY 19 JUNE 2022

## 11H15-12H30: PARALLEL SESSION 2

## S51 CAP training during the pandemic

TRACK: YOUNG PROFESSIONALS

Chair: Konstantinos Kotsis

Co-chair: Asilay Seker

Discussant: Dimitris Anagnostopoulos

Room: 0.8

## PRESENTATIONS:

11h15-11h30

## #253 Online training during the pandemic

Konstantinos Kotsis

*University of Ioannina Community CAMH Centre, Department of Psychiatry Ioannina Greece*

11h30-11h45

## #245 Psychotherapy Training in Child and Adolescent

Psychiatry: Europe and Covid-19

Asilay Seker

*Cambridgeshire and Peterborough NHS Foundation Trust Child and Adolescent Psychiatry Cambridge United Kingdom*

11h45-12h00

## #593 How building CAP competence for trainees through online format? An exploratory qualitative study

Marie-Aude PIOT

*University of Paris Child and adolescent Psychiatry Paris France*

12h00-12h15

## PROGRAMME - MONDAY 20 JUNE 2022

## 09H15-10H30: PARALLEL SESSION 1

**S2 Cognitive and functional outcomes in children of parents with severe mental illness across development**

TRACK: DETERMINANTS

Chair: Esther Mesman

Co-chair: Caroline Vandeleur

Discussant: Kerstin von Plessen

Room: 0.15

PRESENTATIONS:

09h15-09h30

**#43 Systematic Review: Functional Outcome and Quality of Life in Offspring of Parents with Bipolar Disorder**

Fleur Helmink

*Erasmus Medical Centre-Sophia Child- and Adolescent Psychiatry/ Psychology Rotterdam The Netherlands*

09h30-09h45

**#59 Development of Social and Neurocognitive Functioning in preadolescent children at familial high risk of schizophrenia or bipolar disorder: The Danish High Risk and Resilience Study – VIA 11**

Nicoline Hemager

*Mental Health Services, Capital Region of Denmark Mental Health Center Copenhagen, Gentofte University Hospital, Research Unit Copenhagen Denmark*

09h45-10h00

**#63 Genetic and structural brain correlates of cognitive subtypes across youth at family risk for schizophrenia and bipolar disorder**

Isabel Valli

*Institut d'Investigacions Biomèdiques August Pi i Sunyer (IDIBAPS) Child and Adolescent Psychiatry Barcelona Spain*

10h00-10h15

**#105 Psychosocial functioning in offspring of parents with bipolar and unipolar mood disorders assessed across 15 years of follow-up**

Caroline Vandeleur

*University Hospital of Lausanne Psychiatry Lausanne Switzerland*

10h15-10h30

**Questions and Discussion**

All

## 09H15-10H30: PARALLEL SESSION 1

**S36 Lifestyle intervention in child psychiatry**

TRACK: PREVENTION AND INTERVENTION

Chair &amp; discussant: Ramon Lindauer

Room: AUDITORIUM 2

PRESENTATIONS:

09h15-09h30

**#183 Novel insights into somatic comorbidities in children and adolescents across psychiatric diagnoses**

Sara Pieters

*Karakter UC child and adolescent psychiatry Nijmegen The Netherlands, Radboud University Behavioural Science Nijmegen The Netherlands*

09h30-09h45

**#203 The Movementss study: A randomized controlled trial comparing the short and long term effects of a lifestyle intervention in children with a psychiatric disorder. Rationale, study design and methode**

Emilie van Tetering

*Karakter Child and Youth psychiatry Child and Youth psychiatry Nijmegen The Netherlands*

09h45-10h00

**#609 Lifestyle interventions in daycare and clinical residencies in child and adolescent psychiatry: qualitative research**

Malindi van der Mheen

*Amsterdam UMC Child and Adolescent Psychiatry (Levvel) Amsterdam The Netherlands*

10h00-10h15

**#619 Sweet DREAMS: a study on the prevalence of sleep problems in youth with psychiatric disorders**

Sara Pieters

All

## 09H15-10H30: PARALLEL SESSION 1

## S53 Understanding environmental mediators in the presence of genetic vulnerability for psychopathology, the model of 22q11.2 Deletion Syndrome.

TRACK: DEVELOPMENT

Chair: Doron Gothelf

Co-chair and discussant: Corrado Sandini

Room: 0.9

## PRESENTATIONS:

09h15-09h30

**#296 Characteristics of individuals with 22q11.2DS who convert to psychotic disorders during a long-term close psychiatric follow-up**

Noam Matalon

*Sheba, Tel Hashomer The Pediatric Molecular Psychiatry Laboratory Ramat-Gan Israel*

09h30-09h45

**#271 Post-traumatic stress in individuals with 22q11.2 deletion syndrome**

Therese van Amelsvoort

*Maastricht University Psychiatry & Neuropsychology Maastricht The Netherlands*

09h45-10h00

**#287 Parental Expressed Emotion, Parenting Stress, and Behavioral Problems of Young Children with 22q11.2 Deletion Syndrome and Idiopathic Autism Spectrum Disorder**

Yaffa Serur

*Sheba, Tel Hashomer The Child Psychiatry Division, The Edmond and Lily Safra Children's Hospital Ramat-Gan Israel*

10h00-10h15

**#261 Differences in daily-life psychopathology dynamics across neurodevelopment disorders, revealed by a novel multi-layer network analysis approach**

Corrado Sandini

*University of Geneva Département of Psychiatry Geneva Switzerland*

10h15-10h30

Questions and Discussion

All

## 09H15-10H30: PARALLEL SESSION 1

## S60 Findings from the Milestone Project: A European Study on Transition from Child to Adult Mental Health Care

TRACK: PREVENTION AND INTERVENTION

Chair: Gwen Dieleman

Discussant: Leanne Walker

Room: 0.14

## PRESENTATIONS:

09h15-09h30

**#487 Managed Transition to support mental health outcomes at the child and adult mental health service boundary**

Helena Tuomainen

*University of Warwick Warwick Medical School Coventry United Kingdom*

09h30-09h45

**#344 Leaving Child and Adolescent Mental Health Services in Europe: Young People's Mental Health Indicators, Care Pathways and Outcomes**

Suzanne Gerritsen

*Erasmus MC - Sophia Child and Adolescent Psychiatry/Psychology Rotterdam The Netherlands*

09h45-10h00

**#434 THE IMPORTANCE OF CLINICIANS' AND PARENTS' AWARENESS OF SUICIDAL BEHAVIOUR IN ADOLESCENTS REACHING THE UPPER AGE LIMIT OF THEIR MENTAL HEALTH SERVICES IN EUROPE**

Giovanni de Girolamo

*IRCCS Fatebenefratelli UOPEV Brescia Italy*

10h00-10h15

**#458 The Perspective of Young Project Advisors on the MILESTONE Findings**

Amanda Tuffrey

*Warwick Health & Social Sciences Warwick United Kingdom*

7  
PROGRAMME - MONDAY 20 JUNE 2022

## STATE OF THE ART SPEAKER

11H00-11H45

Room: AUDITORIUM 1

KATHRYN ABEL

**Children and Adolescents with PaRental mental illness - CAPRI****DOES TARGETTING HIGH RISK FAMILIES IMPROVE CAPRI LIVES OR INCREASE THEIR HEALTH INEQUALITIES?**

Kathryn Abel is Professor of Psychological Medicine and Reproductive Psychiatry, Director and Founder of the Centre for Women's Mental Health at the University of Manchester and co-Director of GM.Digital (formerly CAMHS.Digital) for Greater Manchester Mental Health where she is an honorary consultant psychiatrist. Her research interests include sex differences in mental illness; gender and mental health; perinatal mental and physical health; maternal condition and its effects on offspring cognitive development; parenting as a mediator of maternal effects and the outcomes of children of parents with mental illness. She also has an extensive programme of work with women in prisons who self-harm. Her research spans basic research using large data epidemiology and neuroscience techniques, co-development of interventions and randomised trials.

She has over 200 publications and a varied portfolio of public and patient communication of research including the use of film, animation, theatre and a longstanding collaboration with the SICK! Arts Festival. She has edited several books on women and mental health including Comprehensive Women's Mental Health (2017 Cambridge University Press) and the lay reader: 'The Female Mind' (2017) for the Royal College of Psychiatrists. She is a member of the MQ Mental Health charity's DataScience group. She holds a prestigious European Research Council Science Fellowship, is the NIHR National Lead for Mental Health and a National Institutes of Health Research Senior Investigator.

## STATE OF THE ART SPEAKER

11H00-11H45

Room: AUDITORIUM 2

RICCARDO DALLE GRAVE  
(CANCELED)**Development, evaluation and dissemination of cognitive behavior therapy for adolescents with eating disorders**

Riccardo Dalle Grave, MD, is Director of the Department of Eating and Weight Disorders at Villa Garda Hospital, Verona (Italy). His research within this department has addressed many aspects of eating disorders and obesity, including their diagnosis, maintenance mechanisms, assessment and treatment, and in collaboration with Professor Christopher G. Fairburn he has developed an original inpatient treatment for eating disorders based entirely on enhanced cognitive behaviour therapy (CBT-E), as well as an adaptation of CBT-E for adolescents with eating disorders. Dr. Dalle Grave has a particular interest in assessing the effectiveness of CBT-E in adolescent patients with eating disorders who are significantly underweight in both outpatient and inpatient settings. He is editor of the CBT-E website, and Director of the Italian Advanced Training Course on the Treatment and Prevention of Eating Disorders and Obesity, which trains clinicians in cognitive behaviour therapy for eating disorders and obesity. He also provides expert CBT-E supervision for clinical services in Europe, the USA, Australia, and the Middle East. He is a Fellow of the Academy of Eating Disorders and a member of the editorial boards of several journals on eating disorders.

## PROGRAMME - MONDAY 20 JUNE 2022

## STATE OF THE ART SPEAKER

11H45-12H30

Room: AUDITORIUM 1

KERSTIN VON PLESSEN

**Tic disorders and obsessive compulsive disorders : aetiology and treatment options**

Professor Kerstin von Plessen is a child and adolescent psychiatrist with an interest in the neurobiological basis of mental illness, with a view to prevention and early intervention. She has been professor at the University of Copenhagen from 2012-2017, and from 2017 at the University of Lausanne, as head of the Division of Child and Adolescent Psychiatry (SUPEA) at the CHUV. Her research focuses on the neurobiological basis of neuropsychiatric disorders (TS, OCD, ADHD), as well as the vulnerability of children at risk for schizophrenia and bipolar disorders. The study of these factors, which facilitate recovery, compensation and plasticity, is another line of research. Trained at the Scandinavian school - she completed her specialisation in child psychiatry and her training in psychotherapy in Norway and taught at the University of Copenhagen - Kerstin von Plessen advocates a vision of child and adolescent psychiatry oriented towards outpatient care and facilitation of autonomy of young people and families whenever possible. Proximity is important for patient care, but also for family support. Kerstin Plessen has led several longitudinal studies in the Capital Region of Denmark, at the University of Copenhagen and at the University of Bergen, which study the development of emotion regulation in children with ADHD and TS. Furthermore, she is co-responsible for a study with a longitudinal perspective mapping dimensional assessments of children with a high risk of developing psychiatric disorders (The Danish High Risk and Resilience Study – VIA7).

## STATE OF THE ART SPEAKER

11H45-12H30

Room: AUDITORIUM 2

DIANE PURPER-OUAKIL

**Are psychiatrists trained to mind the gap between child and adult services?**

Diane Purper-Ouakil is professor of child and adolescent psychiatry at the university hospital of Montpellier, France. Since 2011, she is head of the child and adolescent unit of the Saint Eloi Hospital. This unit has facilities for both inpatient and outpatient care for young patients and has specialized services for children and adolescents with ADHD and eating disorders.

Between 2016 and 2019, she was medical director of a trust of CAMHS and AMHS services within the CHU of Montpellier. She is also vice-president of the faculty college of psychiatry involved in the ongoing reform of the training curriculum of medical studies and is member of the professional college of psychiatrists.

Diane Purper-Ouakil aims to develop the evidence-base of psychological, neurophysiological and pharmacological treatments, especially for children and adolescents with challenging and enduring behavioural and emotional symptoms. She is involved in collaborative treatment studies, some involving parent programs, an important feature of comprehensive treatment plans for young people with complex needs.

7  
PROGRAMME - MONDAY 20 JUNE 2022

## 12H30 - 13H30: INDUSTRY SPONSORED SESSION

## 14H45-16H00: PARALLEL SESSION 2

**S13 Intergenerational Transmission of Traumatic Stress and Attachment-Related Risk Prenatally and Postnatally: Mechanisms and Implications for Intervention**

TRACK: DETERMINANTS

Chair: Daniel S. Schechter

Discussant: Sylvie Viaux Savelon

Room: 0.8

PRESENTATIONS:

14h45-15h00

**#533 Longitudinal perspectives focused on narrativity from infancy to toddlerhood of children of borderline mothers. What can research teach us on early mother-baby clinical therapeutic settings?**

Genet Marie-Camille

*Le Havre University Hospital Child Psychiatry, Research Unit PARIS France, Paris University, LPPS and EPS Erasme Child Psychiatry Boulogne, Antony France*

15h00-15h15

**#77 The role of the HPA axis in predicting associations between maternal prenatal stress and child outcomes**

Naomi Downes

*INSERM, Sorbonne Université Institut Pierre Louis d'Epidémiologie et de Santé Publique, ERES Paris France*

15h15-15h30

**#96 Effects of maternal trauma and associated psychopathology on atypical maternal behavior and infant social withdrawal six months postpartum**

Nina Burtchen

*University of Freiburg Department of Psychosomatic Medicine and Psychotherapy, Faculty of Medicine Freiburg Germany*

15h30-15h45

**#140 Accumulated risk factors of maternal violence related PTSD and related concepts associate in dimensional way to child pathology and other outcome risks.**

Dominik Moser

*University hospitals of the Canton of Vaud (CHUV) Child Psychiatry Lausanne Switzerland*

## 14H45-16H00: PARALLEL SESSION 2

**S42 Opportunities of different types of eHealth for treatment and prevention of psychological difficulties including depression.**

TRACK: EHEALTH NETWORKS

Chair: Yvonne Stikkelbroek  
Discussant: Annabel Vreeker  
Room: 0.15

## PRESENTATIONS:

14h45-15h00  
**#211 Appealing to youth with video game based depression prevention**  
Marlou Poppelaars  
*HOSPITAL SANT JOAN DE DÉU CHILD AND ADOLESCENT PSYCHIATRY AND PSYCHOLOGY DEPARTMENT BARCELONA Spain, HOSPITAL SANT JOAN DE DÉU Child and Adolescent Mental Health Research Group BARCELONA Spain*

15h00-15h15  
**#380 "Taking action": an e-health early intervention targeting parents, embedded in a school context**  
Maurane Desmet  
*Ghent University Department of Developmental, Personality and Social Psychology. Ghent Belgium*

15h15-15h30  
**#369 A Systematic Review on Blended Care in Youth Mental Health**  
Elisa Boelens  
*Ghent University Department Of Developmental, Personality And Social Psychology Ghent Belgium*

15h30-15h45  
**#284 Pragmatic Quasi-Experimental Controlled Trial Evaluating the Outcomes of Blended CBT Compared to Face-to-Face CBT and Treatment as Usual for Adolescents with Depressive Disorders**  
Yvonne Stikkelbroek  
*Utrecht University Clinical Child and Family Studies Utrecht The Netherlands, GGZ Oost Brabant Depression Expert Center Youth Utrecht The Netherlands*

15h45-16h00  
**Questions and Discussion**  
All

## 14H45-16H00: PARALLEL SESSION 2

**S54 Novel insights into multifactorial mechanisms affecting mental health in neurodevelopmental disorders: The case of 22q11.2 Deletion Syndrome**

TRACK: DEVELOPMENT

Chair & discussant: Corrado Sandini  
Room: 0.9

## PRESENTATIONS:

14h45-15h00  
**#274 The Validation of the Medical Burden Scale in Individuals with 22q11.2 Deletion Syndrome**  
Noam Matalon  
Sheba, Tel Hashomer  
*The Pediatric Molecular Psychiatry Laboratory Ramat-Gan Israel*

15h00-15h15  
**#358 Clinical and cognitive correlates of multivariate patterns of sleep disturbance in 22q11.2 Deletion Syndrome**  
Natacha Reich  
*University of Geneva Department of Psychiatry Geneva Switzerland*

15h15-15h30  
**#273 Involvement of inflammation and blood-brain barrier permeability in cognitive deficits and psychosis in 22q11.2 deletion syndrome**  
Michal Taller  
*Sheba, Tel Hashomer The Pediatric Molecular Psychiatry Laboratory Ramat-Gan Israel, Tel Aviv University Sackler Faculty of Medicine Tel-Aviv Israel*

15h30-15h45  
**#268 Characterizing ADHD symptomatology and the effects of methylphenidate treatment in individuals with 22q11.2 deletion syndrome**  
Caren Latrèche  
*University of Geneva Department of Psychiatry Geneva Switzerland*

15h45-16h00  
**Questions and Discussion**  
All

## 14H45-16H00: PARALLEL SESSION 2

**S59 Attention in children with autism spectrum disorders**

TRACK: DEVELOPMENT

Chair: Maude Schneider  
Discussant: Marie Schaer  
Room: 0.4

## PRESENTATIONS:

14h45-15h00  
**#394 Measuring social orienting in preschoolers with autism spectrum disorder using different types of eye-tracking paradigms**  
François Robain  
*University of Geneva Department of Psychiatry Geneva Switzerland*

15h00-15h15  
**#441 Pupillometric measures of locus coeruleus-norepinephrine activity explain altered gaze preferences in preschoolers with autism spectrum disorder**  
Christine Freitag  
*University Hospital Frankfurt, Goethe University Child and Adolescent Psychiatry, Psychosomatics and Psychotherapy Frankfurt Germany*

15h15-15h30  
**#357 Neural networks involved in social visual engagement in preschoolers with ASD**  
Nada Kojovic  
*University Of Geneva Psychiatry Geneva Switzerland*

15h30-15h45  
**#342 Characterizing Cognitive flexibility in ASD and ADHD children**  
Fiona Journal  
*University of Geneva Psychology and Sciences of Education faculty Geneva Switzerland*

15h45-16h00  
**Questions and Discussion**  
All

**14H45-16H00: PARALLEL SESSION 2****S86 Lifelong learning for professionals**

TRACK: YOUNG PROFESSIONALS  
Room: 0.1

## PRESENTATIONS:

14h45-15h00

**#44 Establishing effective working relationships between youth peer specialists and clinicians in child and adolescent mental health services**

Carolijn de Beer

Curium-Leiden University Medical Center (LUMC) Department of Child and Adolescent Psychiatry Leiden The Netherlands

15h00-15h15

**#111 Career pathways for child and adolescent psychiatrists -A national trainee led recruitment project**

Anna Sofie Hansen

Aalborg University Hospital Psychiatry Aalborg Denmark, Danish Association of Child and Adolescent Psychiatry Boardmember Vadum Denmark

15h15-15h30

**#305 Attitudes towards patients with mental health disorders among child psychiatrists across Europe**

Dorottya Ori

Heim Pal National Pediatric Institute Department of Mental Health Budapest Hungary, Semmelweis University Institute of Behavioural Sciences Budapest Hungary

15h30-15h45

**#74 QUALITY IMPROVEMENT APPROACH OF CLINICAL HANDOVER IN THE LIAISON PSYCHIATRY DEPARTMENT IN CHI-CRUMLIN**

Engy Shehata

CHI- Crumlin Liaison Psychiatry Dublin Ireland

15h45-16h00

**Questions and Discussion**

All

**14H45-16H00: PARALLEL SESSION 2****S87 Genetics in CAP**

TRACK: BRAIN AND GENETIC NETWORKS  
Room: 0.2

## PRESENTATIONS:

14h45-15h00

**#163 Genome-wide gene-environment interplay on child subcortical brain structures and psychopathology risk**

Koen Bolhuis

Erasmus Medical Centre Child & Adolescent Psychiatry/Psychology Rotterdam The Netherlands

15h00-15h15

**#371 Genetic overlap between somatic diseases and psychiatric disorders**

Janita Bralten

Radboudumc Human Genetics Nijmegen The Netherlands

15h15-15h30

**#465 Could the stereotypes level be used to differentiate the clinical manifestation of autism: Ankara University Autism Biobank Preliminary Data**

Merve Cikili-Uytun

TU Dresden Department of Child and Adolescent Psychiatry Dresden Germany

15h30-15h45

**#382 Impact of ADHD polygenic risk on childhood growth**

Manuela Kouakou

University of Geneva Department of Psychiatry, Faculty of Medicine Geneva Switzerland, University of Geneva Department of Pediatrics Gynaecology and Obstetrics, Faculty of Medicine Geneva Switzerland

7  
PROGRAMME - MONDAY 20 JUNE 2022

## WORKSHOPS - AFTERNOON

**14H45-18H15**  
**W6 LIGHTHOUSE MBT-PARENTING PROGRAMME FOR REDUCING RISK OF MALTREATMENT**

Abstract ID #392

TRACK: TREATMENT

Presentation: Gerry Byrne

Room: 0.3

**14H45-18H15**  
**W5 'EVIDENCE-BASED TRAUMA TREATMENT FOR YOUNG PEOPLE: DOING WHAT WORKS!'**

Abstract ID #232

TRACK: TREATMENT

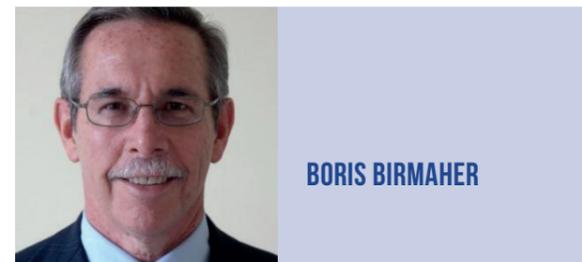

Presentation: Marlies van Dijk

Room: 0.13

## STATE OF THE ART SPEAKER

16H30-17H15

Room: AUDITORIUM 1

**Predicting Individualized Risk for Mood Recurrences in Youth and Adults with Bipolar Disorder**

Dr. Birmaher is the Endowed Chair in Early Onset Bipolar Disease and Distinguished Professor of Psychiatry at the University of Pittsburgh, School of Medicine and the Director of the Child and Adolescent Bipolar Spectrum Services. He received his medical degree from Valle University in Cali, Colombia; completed training in general psychiatry at the Hebrew University in Jerusalem, Israel, and child psychiatry at Columbia University, New York.

Dr Birmaher is a leader in the study and treatment of pediatric mood and anxiety disorders. In addition, his research has concentrated in describing the predictors, risk factors, course and treatment of childhood-onset bipolar disorder. Throughout his career, he has served as the Principal, Co-Principal or co-investigator for over 25 federally-sponsored research grants and projects. He has authored or co-authored more than 470 publications, numerous book chapters as well as his own book, *New Hope for Children and Teens with Bipolar Disorder*. Dr. Birmaher has been the recipient of numerous awards over the years including the Colvin Prize for Outstanding Achievement in Mood Disorders Research in 2013 and the Ittleson Award for Research in Child and Adolescent Psychiatry in 2014. In 2018, he received the Gerald L Klerman Senior Investigator Award and the Lifelong Fellow Award from the American Psychiatric Association. For four years and until 10/2018 he was the Program Chair of the American Academy of Child and Adolescent Psychiatry and recently was named Counselor-At-Large of the same association. Through his research, clinical and mentoring activities, Dr. Birmaher has increased our understanding of the risk factors for mood and anxiety disorders, developed and implemented innovative treatments to improve the lives of patients and their families, and trained the next generation of educators, clinicians and researchers.

## PROGRAMME - MONDAY 20 JUNE 2022

## STATE OF THE ART SPEAKER

16H30-17H15

Room: AUDITORIUM 2

**Social-affective engagement in adolescence**

Prof. Eveline Crone is full professor in Developmental Neuroscience in Society and she leads the SYNC lab (Society, Youth and Neuroscience Connected). Prof. Crone's research examines the psychological and neural processes involved in self-regulation and social development. All of her work employs a developmental cognitive neuroscience approach to examine the relation between brain development and changes in psychological processes from birth to adulthood, with a special focus on adolescence. Prof. Eveline Crone received her PhD, cum laude, from the University of Amsterdam; her dissertation is entitled: *Performance monitoring and decision-making: Psychophysiological and developmental analyses*. After her PhD, she spent 2 years as a postdoctoral researcher at UC Davis. In 2005 she came to Leiden University, where she set up the Brain and Development Lab. She was appointed full professor on March 15, 2009. In 2013 she has been a member of the Royal Netherlands Academy of Arts and Sciences (KNAW) and in 2017 she joined the Scientific Council of the European Research Council (ERC), the European Commission's excellence program for Frontiers Research, as of 2020 she is Vice-President of the ERC's Scientific Council. Since 2020, she is Full Professor at the Erasmus University Rotterdam, with the goal to make impact in society. Eveline has been awarded several prestigious research grants, including a VENI, VIDI and VICI grant by the Netherlands Organisation for Scientific Research (NWO) and two grants by the European Research Council (ERC), namely a Starting Grant in 2010 and a Consolidator Grant in 2016. In September 2017, Eveline received the Spinoza award for her research on the adolescent brain. The Spinoza award is the highest recognition in Dutch Science.

## STATE OF THE ART SPEAKER

16H30-17H15

Room: 0.15

**Embedding the brain to its social ecology: a challenge to conduct disorder research**

Essi Viding is Professor of Developmental Psychopathology at the Division of Psychology and Language Sciences, University College London where she co-directs the Developmental Risk and Resilience Unit. She is also adjunct faculty at Yale University Medical School Child Study Centre. Her research combines a variety of methodologies in an effort to chart different developmental pathways to persistent antisocial behaviour. Professor Viding is a Fellow of the British Academy and has received several prizes for her work, including the British Academy Wiley Prize in Psychology, the British Psychological Society Spearman Medal, and the Royal Society Rosalind Franklin Award.

## 7 PROGRAMME - MONDAY 20 JUNE 2022

## 17H15-18H15: PARALLEL SESSION 3

**S11 ADHD und externalizing disorders in family context – exploring the role of parenting stress and parent child relationship**

TRACK: DEVELOPMENT

Chair: Alisa Susann Cosan

Co-chair and discussant: Eva Möhler

Room: AUDITORIUM 2

## PRESENTATIONS:

17h15-17h30

**#101 Maternal adverse childhood experiences and mother-child interaction**

Eva Möhler

*Saarland University Hospital Child and Adolescent Psychiatry Homburg Germany*

17h30-17h45

**#109 Parental hair cortisol concentration and child's ADHD symptomatology between preschool- and school age**

Alisa Susann Cosan

*Philipps University of Marburg Department of Child and Adolescent Psychiatry Marburg Germany*

17h45-18h00

**#126 Role of parental positive reinforcement and expressed emotion in developing attention deficit hyperactivity disorder, oppositional, callous unemotional symptoms, and executive functions**

Ursula Pauli-Pott

*Philipps-University Marburg Child and Adolescent Psychiatry Marburg Germany*

18h00-18h15

**Questions and Discussion**

All

## 17H15-18H15: PARALLEL SESSION 3

**S18 New developments in the assessment and treatment of young people with a clinical high risk state of psychosis**

TRACK: PREVENTION AND INTERVENTION

Chair: Chantal Michel

Co-chair: Frauke Schultze-Lutter

Discussant: Marco Armando

Room: 0.15

## PRESENTATIONS:

17h15-17h30

**#119 Clinical high-risk criteria of psychosis in 8- to 17-year-old community subjects and inpatients not clinically suspected to develop psychosis**

Frauke Schultze-Lutter

*Heinrich-Heine-University Düsseldorf Department of Psychiatry and Psychotherapy Düsseldorf Germany*

17h30-17h45

**#118 An ecological momentary assessment study of age effects on perceptible and non-perceptible clinical high-risk symptoms of psychosis**

Chantal Michel

*University of Bern University Hospital of Child and Adolescent Psychiatry and Psychotherapy Bern Switzerland*

17h45-18h00

**#146 Treatment approach "Robin": standardized manual and smartphone app for adolescents at clinically high risk for developing a psychotic disorder**

Nina Traber-Walker

*University of Zurich Department of Child and Adolescent Psychiatry and Psychotherapy Zurich Switzerland*

18h00-18h15

**Questions and Discussion**

All

## PROGRAMME - MONDAY 20 JUNE 2022

## 17H15-18H15: PARALLEL SESSION 3

**S61 European perspectives on the impact of the COVID-19 pandemic on the development and course of eating disorders in youth**

TRACK: COVID-19

Chair: Nadia Micali

Co-chair: Beate Herpertz-Dahlmann

Discussant: Mima Simic

Room: AUDITORIUM 1

## PRESENTATIONS:

17h15-17h30

**#486 Increase in admission rates and symptom severity of childhood and adolescent anorexia nervosa in Europe during the COVID-19 pandemic: Data from specialised eating disorder units in different European countries and from a health insurance data set**

Beate Herpertz-Dahlmann

*RWTH University Aachen Department of Child and Adolescent Psychiatry, Psychosomatics and Psychotherapy Aachen Germany*

17h30-17h45

**#555 Locked down with my Eating Disorder: a retrospective study on the impact of COVID-19 lockdown on adolescents with ED**

Nadia Micali

*University of Geneva Psychiatry Geneva Switzerland*

17h45-18h00

**#431 Experiences of adolescents with anorexia nervosa and their caregivers on the inpatient and outpatient treatment during COVID-19 confinement**

Michael Zeiler

*Medical University of Vienna Department for Child and Adolescent Psychiatry Vienna Austria*

18h00-18h15

**Questions and Discussion**

All

## 17H15-18H15: PARALLEL SESSION 3

**S100 Personalised pharmacological treatment**

TRACK: TREATMENT

Chair and discussant: Prof. Johannes Hebebrand

Room: 0.4

## PRESENTATIONS:

17h15-17h30

**#421 Precision dosing of aripiprazole in children and adolescents: linking blood levels to weight gain and effectiveness**

Rebecca Hermans

*Erasmus Medical Center Child and Adolescent Psychiatry/Psychology & Hospital Pharmacy Rotterdam The Netherlands*

17h30-17h45

**#7 Monitoring of adverse drug reaction-related parameters in children and adolescents treated with antipsychotic drugs in psychiatric outpatient clinics**

Lenneke Minjon

*Utrecht University Utrecht Institute for Pharmaceutical Sciences Utrecht The Netherlands*

17h45-18h00

**#107 Psychiatric adverse events during antipsychotic treatment in naïf children and adolescents**

Susanne Thümmeler

*Children's Hospitals of Nice CHU-Lenval University Department of Child and Adolescent Psychiatry Nice France, Université Côte d'Azur CoBtek, FRIS Nice France*

18h00-18h15

**Questions and Discussion**

All

## 17H15-18H15: PARALLEL SESSION 3

## S90 Tailored treatment

TRACK: TREATMENT  
Room: 0.5

## PRESENTATIONS:

17h15-17h30

**#388 Serious adverse drug reactions in children and adolescents during (off-label) antidepressant and antipsychotic pharmacotherapy**

Karin Egberts

*University Hospital Wuerzburg Child and adolescent psychiatry Wuerzburg Germany*

17h30-17h45

**#45 Relapse prevention strategies in adolescents and young adults remitted from depression and anxiety**

Suzanne Robberegt

*Amsterdam University Medical Centres, location AMC Department of Psychiatry Amsterdam The Netherlands, GGZ Oost Brabant Depression Expertise Centre-Youth Boekel The Netherlands*

17h45-18h00

**#70 Modalities of pediatric appropriate PR melatonin (PedPRM) prescription in children with ASD and insomnia - a case studies**

Carmen M. Schroder

*University of Strasbourg Child and Adolescent Psychiatry Strasbourg France, Institute for Cellular and Integrative Neurosciences Sleep Medicine Strasbourg France*

18h00-18h15

**Questions and Discussion**

All

## 17H15-18H15: PARALLEL SESSION 3

## S91 Network of CAMHS

TRACK: PREVENTION AND INTERVENTION  
Room: 0.1

## PRESENTATIONS:

17h15-17h30

**#61 The development of a regional out-patient system following clinical epidemiology-die Luzerner Psychiatrieplanung**

Oliver Bilke-Hentsch

*Luzerner Psychiatrie/Universität Luzern KJPD Luzern Switzerland*

17h30-17h45

**#571 Child and adolescent psychiatry in the Netherlands: patterns of change over the last 25 years**

Frits Boer

*Amsterdam UMC Child and Adolescent Psychiatry Amsterdam The Netherlands*

17h45-18h00

**#121 A qualitative evidence synthesis of school staff perspectives of youth mental health**

Maeve Dwan O'Reilly

*University College Dublin Psychology Dublin Ireland, Jigsaw, the National Centre for Youth Mental Health Research and Evaluation Dublin Ireland*

18h00-18h15

**Questions and Discussion**

All

## 17H15-18H15: PARALLEL SESSION 3

## S6 Interventions for children of parents with a mental illness

TRACK: PREVENTION AND INTERVENTION

Chair: Annebel Vreeker

Discussant: Manon Hillegers

Room: 0.9

## PRESENTATIONS:

17h15-17h30

**#130 SAFIR FAMILY TALK: an ongoing randomized controlled trial investigating a selective primary preventive intervention vs. service as usual for children of parents with mental illness**

Anne Ranning

*University of Copenhagen/Mental Health Centre Copenhagen Institute of Psychology Copenhagen Denmark*

17h30-17h45

**#216 Children of Parents with a Mental Illness At Risk Evaluation – The COMPARE Study**

Hanna Christiansen Philipps

*University Marburg Psychology Marburg Germany*

17h45-18h00

**#75 Intervention for mood disorder symptoms in children of parents with psychiatric disorders -The MARIO intervention study**

Melany Horsfall

*Amsterdam UMC, location VUMC Department of psychiatry Amsterdam The Netherlands*

18h00-18h15

**Questions and Discussion**

All

## 17H15-18H15: PARALLEL SESSION 3

## S69 Female adolescent conduct disorder: Neurobiological findings and their relation to intervention outcome.

TRACK: PREVENTION AND INTERVENTION

Chair: Stephane de Brito

Discussant: Christine Freitag

Room: 0.2

## PRESENTATIONS:

17h15-17h27

**#564 Predicting follow-up outcome of the CBT-skillstraining START NOW for female adolescents with conduct disorder and oppositional defiant disorder**

Christina Stadler

*University Hospital Department of Child and Adolescent Psychiatry Basel Switzerland*

17h27-17h39

**#481 Psychophysiological correlates of antisocial behavior in girls**

Helena Oldenhof

*Amsterdam University Medical Center Child and Adolescent Psychiatry Amsterdam The Netherlands*

17h39-17h51

**#583 Linking heart rate variability emotion regulation and brain structure in adolescents with and without conduct disorder**

Antonia Tkalcec

*University Hospital of Basel Department of Child and Adolescent Psychiatry Basel Switzerland*

17h51-18h03

**#49 Using wearables to study psychophysiological activity in relation to child aggressive behavior; a feasibility study in a clinical setting**

Fleur Velders

*UMC Utrecht Psychiatry Utrecht The Netherlands*

18h03-18h15

**Questions and Discussion**

All

**17H15-18H15: PARALLEL SESSION 3****S41 Crossing borders: Animal-assisted therapy in child psychiatry (Clinical Perspective)**

TRACK: TREATMENT

Chair and discussant: Wouter Staal

Room: 0.8

## PRESENTATIONS:

17h15-17h27

**#573 Networks of animal-assisted therapy in child and adolescent psychiatry - state of the art**

Ingo Spitzcok von Brisinski

*LVR-Klinik Viersen Child & Adolescent Psychiatry Viersen Germany*

17h27-17h39

**#544 KELPIE, a pilot study of animal-assisted intervention in child and adolescent psychiatry to build a therapeutic relationship.**

Andrea Schmitz

*LVR Clinic Psychiatry, Psychosomatic and Psychotherapy for children and adolescence Viersen Germany*

17h39-17h51

**#297 Pegasus, Equine-Assisted Therapy for therapy-resistant adolescents with autism spectrum disorders, a replicated AB design**

Jenny den Boer

*Karakter Gelderland Ede The Netherlands*

17h51-18h03

**#286 Crossing borders (in multiple ways)**

Esther Hiemstra

*GGMD Child and adolescent psychiatry Groningen The Netherlands*

18h03-18h15

**Questions and Discussion**

All

**17H15-18H15: PARALLEL SESSION 3****S88 Impact of the organization of healthcare services.**

TRACK: Prevention &amp; Intervention/Treatment

Room: 0.6

## PRESENTATIONS:

17h15-17h30

**#144 Mandatory check for COPMI in adult mental healthcare services in the Netherlands – a quantitative and qualitative evaluation**

Sophie Leijdesdorff

*Maastricht University Psychiatry and neuropsychology Maastricht The Netherlands*

17h30-17h45

**#267 Comparison of antipsychotic drug use among Dutch Youth before and after implementation of the Youth Act (2010- 2019).**

Youssra Bais

*Erasmus Medical Center Department of Hospital Pharmacy Rotterdam The Netherlands*

17h45-18h00

**#110 The effect of the Development and Well-Being Assessment as an adjunct to standard referral letters on referral decisions by Child and Adolescent Mental Health Services**

Anna Sofie Hansen

*Aalborg University Hospital Psychiatry Aalborg Denmark, Aalborg University Clinical Medicine Aalborg Denmark*

18h00-18h15

**Questions and Discussion**

All

**17H15-18H15: PARALLEL SESSION 3****S89 Genetics**

TRACK: BRAIN AND GENETIC NETWORKS

Room: 0.14

## PRESENTATIONS:

17h15-17h30

#

17h30-17h45

**#589 PTBP2 – a gene with relevance for both Anorexia nervosa and body weight regulation**

Yiran Zheng

*University of Duisburg-Essen 1Department of Child and Adolescent Psychiatry, Psychosomatics and Psychotherapy Essen Germany*

17h45-18h00

**#475 Investigation of the Relationship Between Brain Oxysterol Metabolism and Liver X Receptor Gene Variants with Autism Spectrum Disorder**

Didem Behice Öztop

*Ankara University School of Medicine Child and Adolescent Psychiatry Ankara Turkey*

18h00-18h15

**Questions and Discussion**

All

7  
PROGRAMME - TUESDAY 21 JUNE 2022

## 09H00-10H15: PARALLEL SESSION 1

**S28 Adolescent Suicidality in Different Psychiatric Contexts: Overview and Prevention**

TRACK: PREVENTION AND INTERVENTION

Chair: Marco Armando

Discussant: Benedetto Vitiello

Room: AUDITORIUM 2

## PRESENTATIONS:

09h00-09h15

**#161 Prevalence and predictors of self-harm and suicidality in adolescents hospitalized in a mental health inpatient unit**

Marco Armando

*Lausanne University Hospital Child and Adolescent Psychiatry Lausanne Switzerland*

09h15-09h30

**#169 PROSPECT: Predicting Outcome and Suicidality during and Post-hospitalization: an EMA study in a Clinical unit for Teenagers**

Maude Schneider

*University of Geneva Faculty of Psychology and Educational Sciences Geneva Switzerland*

09h30-09h45

**#202 Investigating real-time social interactive pathways to suicidal thoughts and behaviours: The Social Connections of yoUth in disTress (SCOUT) Project**

Olivia Kirtley

*KU Leuven Center for Contextual Psychiatry Leuven Belgium*

09h45-10h00

**#339 Suicidal risk and the quality of sleep in Autism Spectrum Disorder**

Luigi Mazzone

*University of Rome Tor Vergata Child and Adolescence Psychiatry Unit, Policlinico Tor Vergata Hospital Rome Italy*

10h00-10h15

**Questions and Discussion**

All

## 09H00-10H15: PARALLEL SESSION 1

**S92 Selfharm/COVID-19**

TRACK: COVID-19

Chair and discussant: Prof. Dr. Milica Pejovic Milovancevic

Room: AUDITORIUM 1

## PRESENTATIONS:

09h00-09h15

**#414 Covid-19 pandemic and emergency visits for psychiatric reason among children and adolescents: trend of suicidal attempts in the Northwest of Italy**

Chiara Davico

*University of Turin Section of Child and Adolescent Neuropsychiatry, Department of Public Health and Pediatric Sciences Turin Italy*

09h15-09h30

**#393 Suicidality and CoVid-19 in child and adolescent psychiatry**

Paul Plener

*Medical University Vienna Dept. of Child and Adolescent Psychiatry Vienna Austria*

09h30-09h45

**#289 Self-harm and suicidal behavior among children and youth - the impact of the COVID-19 pandemic**

Darja Segan

*University of Novi Sad, Faculty of Medicine Department of Psychiatry and Psychological Medicine Novi Sad Serbia, University Clinical Center of Vojvodina Clinic of Psychiatry Novi Sad Serbia*

09h45-10h00

**#227 Changes in the profile of adolescents who make suicide attempts during COVID19 pandemic.**

Rebeca Gracia

*Hospital Parc Tauli Mental Health Sabadell Spain*

10h00-10h15

**Questions and Discussion**

All

## PROGRAMME - TUESDAY 21 JUNE 2022

## 09H00-10H15: PARALLEL SESSION 1

**S97 Cultural sensitivity in CAMHS**

TRACK: SOCIAL AND FAMILY NETWORKS

Room: 0.2

## PRESENTATIONS:

09h00-09h15

**#348 So many countries, so many customs: A register-based analysis of conduct disorder prevalence and treatment patterns in five Western countries**

Christian Bachmann

*University Hospital Ulm Department of Child & Adolescent Psychiatry Ulm Germany*

09h15-09h30

**#360 How does parents' perception of an adolescent mental health problem predict their intentions towards seeking help?**

Daráine Murphy

*University College Dublin School of Psychology Dublin Ireland*

09h30-09h45

**#48 Regional distributions of psychiatrically disordered youth in a segregated German town – A trend study**

Olaf Reis

*University Medical Center Rostock Department of Child and Adolescent Psychiatry and Neurology Rostock Germany*

09h45-10h00

**#509 Intimate partner violence and prenatal attachment**

## 09H00-10H15: PARALLEL SESSION 1

**S44 Novel technologies to investigate social processes across the lifespan**

TRACK: DETERMINANTS

Chair: Marie Schaer

Discussant: Corrado Sandini

Room: 0.13

## PRESENTATIONS:

09h00-09h15

**#266 Imitation performance and visual exploration in young children with Autism Spectrum Disorder**

Kenza Latrèche

*University of Geneva Department of Psychiatry Geneva Switzerland*

09h15-09h30

**#236 Sensitivity to Autism-Related Differences in Visual Kinematics in Observers with and without Clinical Expertise**

Novella Pretti

*Istituto Italiano di Tecnologia C'MoN Cognition, Motion and Neuroscience Unit Genova Italy, University of Turin Department of Psychology Torino Italy*

09h30-09h45

**#204 Decoding intentions from movement: an embedded approach of social cognition in neurodevelopmental disorder**

Clémence Feller

*University of Geneva Faculty of Psychology and Educational Sciences, Clinical Psychology Unit for Intellectual and Developmental Disabilities Geneva Switzerland*

09h45-10h00

**#222 Interpersonal functioning from adolescence to young adulthood: a macro- and micro- level investigation using the TRAILS TRANS-ID study**

Larisa Morosan

*University Medical Center Groningen ICPE Groningen The Netherlands*

10h00-10h15

**Questions and Discussion**

All

## PROGRAMME - TUESDAY 21 JUNE 2022

## 09H00-10H15: PARALLEL SESSION 1

**S46 The promise of digital phenotyping to provide a better characterization of behavior in children and adolescents with autism spectrum disorders**

TRACK: EHEALTH NETWORKS

Chair and discussant: Christine Freitag

Room: 0.4

## PRESENTATIONS:

09h00-09h15

**#233 Automated identification of ASD in preschoolers using pose estimation from videos**

Nada Kojovic

*University Of Geneva Psychiatry Geneva Switzerland*

09h15-09h30

**#463 AI classification on video data with post-hoc skeletal tracking to identify stereotypic behavior in autism**

Christian Lemler

*University Hospital Frankfurt - Goethe University Department of Child and Adolescent Psychiatry, Psychosomatics and Psychotherapy Frankfurt Germany*

09h30-09h45

**#308 Atypical prosody in young children with ASD relates to motor delay and stereotypies as well as to subsequent speech development**

Michel Godel

*University of Geneva Department of Psychiatry Geneva Switzerland*

09h45-10h00

**#265 Using the Ecological Momentary Assessment to investigate daily-life stress reactivity in youth with autism spectrum disorders**

*Laura Ilen University of Geneva Faculty of Psychology and Educational Sciences Geneva Switzerland*

10h00-10h15

**Questions and Discussion**

All

## 09H00-10H15: PARALLEL SESSION 1

**S58 Mentalizing in systems, organisations and society**

TRACK: SOCIAL AND FAMILY NETWORKS

Chair: Dickon Bevington

Co-chair and discussant: Chloe Campbell

Room: 0.15

## PRESENTATIONS:

09h00-09h15

**#323 Mentalizing beyond the monad and dyad**

Dickon Bevington

*Anna Freud National Centre for Children and Families Clinical Division London United Kingdom*

09h15-09h30

**#417 Mentalizing and non-mentalizing social systems, culture and contexts**

Chloe Campbell

*University College London Clinical, Educational and Health Psychology London United Kingdom*

09h30-09h45

**#424 Ecophenotypes, the digital environment and epistemic trust**

Patrick Luyten

*KU Leuven Psychology Leuven Belgium*

09h45-10h00

**#365 Applying mentalization across the network: AMBIT (Adaptive Mentalization Based Integrative Treatment)**

Liz Cracknell

*Anna Freud National Centre for Children and Families Clinical division London United Kingdom*

10h00-10h15

**Questions and Discussion**

All

## PROGRAMME - TUESDAY 21 JUNE 2022

## 09H00-10H15: PARALLEL SESSION 1

**S65 Recent developments in the treatment of childhood obsessive-compulsive disorder**

TRACK: TREATMENT

Chair: Suzanne Walitza

Co-chair: Listbeth Utens

Discussant: Kerstin Von Plessen

Room: 0.5

## PRESENTATIONS:

09h00-09h15

**#569 Brief intensive cognitive behavioral therapy for children and adolescents with OCD: Findings of two international pilot studies - Part 1**

Marjolein Bus

*Levvel DAT expertise centrum Amsterdam The Netherlands*

09h15-09h30

**#582 Brief intensive cognitive behavioral therapy for children and adolescents with OCD: Findings of two international pilot studies - Part 2**

Veronika Mailänder Zelger

*University of Zurich University Hospital for Child and Adolescent Psychiatry Zurich Switzerland*

09h30-09h45

**#570 Supportive Parenting for Anxious Childhood Emotions (SPACE) for children/adolescents with an obsessive-compulsive disorder**

Margo van der Stelt

*Levvel Dwang-Angst-Tics (DAT)-expertise centrum Amsterdam The Netherlands*

09h45-10h00

**#584 Wrist Angel: A Wearable AI Feedback Tool for OCD Treatment and Research**

Nicole Lønfeldt

*Copenhagen University Hospital Child and Adolescent Mental Health Center Copenhagen Denmark*

10h00-10h15

**Questions and Discussion**

All

## 09H00-10H15: PARALLEL SESSION 1

**S103 DECENTRALISATION AND COMMUNITY BASED MENTAL HEALTHCARE ACROSS EUROPE**

TRACK: PREVENTION AND INTERVENTION

Chair: Bram Dierckx

Discussant: Enikő Kiss

Room: 0.14

## PRESENTATIONS:

09h00-09h15

**#611 Child psychiatry as a social medical profession: developments in the Netherlands**

Robert Vermeiren

*LUMC Curium CAP Leiden The Netherlands*

09h15-09h30

**#612 Comparison of antipsychotic drug use among Dutch Youth before and after implementation of the Youth Act (2010- 2019)**

Yousra Bais

*Erasmus Medical Center Department of Hospital Pharmacy Rotterdam The Netherlands*

09h30-09h45

**#615 Child and Adolescent Psychiatry in a decentralised health system**

Kerstin von Plessen

*University Hospital Lausanne Division Child and Adolescentpsychiatry, Departement of Psychiatry Lausanne Switzerland*

09h45-10h00

**#88 Sectorization: an organization both ancient and modern in French child and adolescent psychiatry**

Jean-Philippe Raynaud

*Toulouse University Hospital SUPEA (Child and adolescent psychiatry department (SUPEA) Toulouse France*

10h00-10h15

## PROGRAMME - TUESDAY 21 JUNE 2022

## WORKSHOPS TUESDAY 21 JUNE 2022

09H00-12H30

**W7 JOINT TRAINING ACROSS PAEDIATRICS AND CAP TO MEET THE NEEDS OF CHILDREN AND YOUNG PEOPLE PRESENTING TO HOSPITAL WITH MENTAL HEALTH AND CARE CRISES**

Abstract ID #396

TRACK: SOCIAL AND FAMILY NETWORKS

Presentation: Katya Certic, Julie Waine and Suyog Dhakras

Room: 0.3

## STATE OF THE ART SPEAKER

10H15-11H00

Room: AUDITORIUM 1

ANDRE SOURANDER

**Efficacy and implementation of digitalized child mental health interventions**

Andre Sourander, MD is Professor of Child Psychiatry at the University of Turku and he has been affiliated as adjunct or visiting professor in several universities including e.g Columbia University, New York; Nagoya University, Japan; Shantou University, China; Jakarta University, Indonesia. He has published about 300 peer reviewed scientific articles and supervised 25 PhD students. The focus of his work has been conducting birth cohort studies from early childhood extending to adulthood, to identify early psychosocial and biological risk factors for the causes of mental health disturbances, as well as to find keys to the development of interventions focused on children at risk. He has been principal investigator for several randomized controlled trials using remote, digital and phone coaching.

## PROGRAMME - TUESDAY 21 JUNE 2022

## STATE OF THE ART SPEAKER

10H15-11H00

Room: AUDITORIUM 2

JACOB VORSTMAN

**Genetics & Clinical Practice In Child Psychiatry: Two Worlds No Longer Apart**

Jacob Vorstman MD, PhD trained in both child and adolescent psychiatry (clinic and research) and molecular genetics (research). He obtained most of his training in the Netherlands, but also worked for two periods at the Children's Hospital of Philadelphia, United States of America. In September 2017 he moved to Toronto, Canada, where he became associate professor psychiatry at The Hospital for Sick Children and the University of Toronto, and holder of the endowed SickKids Psychiatry Associates Chair in Developmental Psychopathology.

Initially, his research focused on the psychiatric and genetic aspects of the 22q11.2 deletion. After obtaining his PhD in 2008, he broadened the scope from 22q11DS to the study of genotype-phenotype relations in neurodevelopmental disorders, in particular autism, intellectual disability and schizophrenia. His ambition is to further insights into the genetic architecture underlying these disorders as well as to improve methods to measure the associated phenotypes. He developed, with Professor Kas at the University of Groningen in the Netherlands, BE-HAPP, a smartphone application for the measurement of social and communicative behaviors, which is currently implemented in several studies generating the first data of this kind.

Dr Vorstman is also the director of the Autism Research Unit at the Hospital for Sick Children; together with his team he initiated a multidisciplinary clinic called DAGSY (Developmental Assessment of Genetically Susceptible Youth), designated for children with genetic risk variants associated with a psychiatric or neurodevelopmental outcomes. His work is funded by several grants, including from the CIHR and NIMH.

## STATE OF THE ART SPEAKER

10H15-11H00

Room: 0.15

MILICA PEJOVIC  
MILOVANCEVIC**Various faces of harsh and violent parental practice: past, present and future**

She is a child psychiatrist from Belgrade, Serbia, employed at the Faculty of Medicine, University in Belgrade, as a professor at the Department of Psychiatry, where she teaches undergraduate and postgraduate studies. He has been organizing elective classes in the undergraduate studies of Child Abuse and Neglect since 2012, as well as Autism Spectrum Disorders since 2017. She is working at Institute of Mental Health, Belgrade. In the period from 2010-2018, she was the President of the Special Working Group within the Ministry of Health of the Republic of Serbia for the implementation of the Special Protocol of the Health Care System for the Protection of Children from Abuse and Neglect. From 2017, she continues to lead the Special Working Group for Assistance and Support to Children and Families of Children with Autism Spectrum Disorders of the Ministry of Health of the Republic of Serbia. As part of that activity, she led the development of Guidelines for screening, diagnosis and therapy of children with autism spectrum disorders. She cooperates with the Ministry of Health of the Republic of Serbia, the Ministry of Education, Science and Technological Development, as well as UNICEF, the Center for the Rights of the Child of Serbia and others. She is currently the president of the Association for Child and Adolescent Psychiatry and Related Professions of Serbia (DEAPS) and the member of ESCAP Board.

## PROGRAMME - TUESDAY 21 JUNE 2022

## 11H30-12H30: PARALLEL SESSION 2

**S4 Adolescents, substance use disorders and psychiatry: New developments in treatment and research**

TRACK: TREATMENT

Chair: Vincent Hendriks  
Discussant: Wouter Staal  
Room: AUDITORIUM 2

## PRESENTATIONS:

11h30-11h45

**#56 The course of addiction and comorbid mental health problems in youth entering addiction treatment: The Youth in Transition study**

Christina Moska  
*Parnassia Group, Parnassia Academy Parnassia Addiction Research Centre (PARC) The Hague The Netherlands*

11h45-12h00

**#57 The added value of systematic client feedback in youth addiction treatment and mental health treatment: A controlled study**

Patty van Benthem  
*Parnassia Groep - Parnassia Academie Parnassia Addiction Research Centre The Hague The Netherlands*

12h00-12h15

**#104 Treatment of adolescents with concurrent substance use disorder and attention-deficit/hyperactivity disorder: Systematic review and international consensus paper**

Vincent Hendriks  
*Leiden University Medical Centre (LUMC) / Parnassia Group Parnassia Addiction Research Centre (PARC) The Hague The Netherlands*

12h15-12h30

**Questions and Discussion**  
All

**#443 The Impact of Daily Hardships and Trauma on the Mental Health of Unaccompanied Refugee Minors detained in Libya**

Elisa Pfeiffer

*University Ulm Clinic for Child and Adolescent Psychiatry/ Psychotherapy Ulm Germany*

11h42-11h54

**#406 Pre-displacement and post-displacement factors associated with the mental health of unaccompanied refugee minors 6 years after the great wave of refugees in Europe**

Cedric Sachser

*Ulm University Child and Adolescent Psychiatry/Psychotherapy Ulm Germany*

11h54-12h06

**#410 Professional quality of life of social workers working with traumatised young unaccompanied refugees in youth welfare institutions in Germany**

Jenny Eglinsky

*Ulm University Child and Adolescent Psychiatry/Psychotherapy Ulm Germany*

12h06-12h18

**#408 Transcultural competencies of professionals working with migrant children and adolescents**

Maïke Garbade

*Ulm University Child and Adolescent Psychiatry / Psychotherapy Ulm Germany*

12h18-12h30

**Questions and Discussion**

All

7  
PROGRAMME - TUESDAY 21 JUNE 2022

## LUNCH SYMPOSIUM

12H30-13H15

**S108 - The Impact of war and forced displacement on children's mental health - multilevel, needs-oriented, and trauma-informed approaches**

TRACK: PREVENTION &amp; INTERVENTION

Chairs and discussants: Prof Jörg Fegert and Dimitris C. Anagnostopoulos

Room: 0.15

PRESENTING:

- o Elisa Pfeiffer
- o David Bürgin
- o Liliia Kuznietsova

## 12H30 - 13H15 INDUSTRY SPONSORED SESSION

## STATE OF THE ART SPEAKER

14H00-14H45

Room: AUDITORIUM 1

**PAUL RAMCHANDANI  
(CANCELED)**

**Critically examining the networks of play and prevention in child and adolescent mental health**

LEGO Professor of Play in Education, Development and Learning, Faculty of Education, University of Cambridge United Kingdom

Paul is LEGO Professor of Play in Education, Development and Learning at Cambridge University. He also works as a Consultant Child and Adolescent Psychiatrist in the UK National Health Service.

He trained as a doctor in Southampton before obtaining a degree in Public Health from the London School of Hygiene and Tropical Medicine. He then completed training in Child and Adolescent Psychiatry and obtained a DPhil from Oxford University. From 2012-2017 he led the Child and Adolescent Mental Health Group at Imperial College London.

Paul's research focusses on early child development, including the prevention of mental health problems and the role of play in children's early development. Much of this work has explored the role of fathers, as well as mothers, in children's lives and development. This interdisciplinary research has been supported by Fellowships from the MRC and Wellcome Trust and by substantive grant funding from the LEGO Foundation and the National Institute of Health Research.

Paul is a trustee of the Early Intervention Foundation and the practitioner review editor for the Journal of Child Psychology and Psychiatry.

## PROGRAMME - TUESDAY 21 JUNE 2022

## STATE OF THE ART SPEAKER

14H00-14H45

Room: AUDITORIUM 2

**ALESSANDRO ZUDDAS**

**What we think, how we feel: "cold" and "hot" executive functions in Neurodevelopmental disorders**

Professor of Child Neuropsychiatry  
Department of Biomedical Sciences  
Section of Neuroscience & Clinical Pharmacology  
University of Cagliari, Cagliari, Italy

Director

Child & Adolescent Neuropsychiatry Unit  
"A.Cao" Paediatric Hospital, "G. Brotzu" Hospital Trust, Cagliari, Italy

Dr. Alessandro Zuddas is Full Professor of Child Neuropsychiatry at the University of Cagliari, Italy  
Prof. Zuddas earned his medical degree from the University of Cagliari, where he also completed the residences in Pharmacology and Child Neuropsychiatry. He did his basic neuroscience training as a Fogarty Fellow at the National Institute of Neurological Disorders and Stroke (NINDS-NIH) in Bethesda MD. After a period at the Institute of Pharmacology, University of Pisa, he has been Head of the Center for Pharmacological Therapies in Child and Adolescent Neuropsychiatry at the Department of Biomedical Sciences, University of Cagliari; since October 2011 Prof. Zuddas is also the director of the Child & Adolescent Neuropsychiatry Unit at the Cagliari University Hospital (currently "G. Brotzu" Hospital Trust) and the coordinator of the Resident Program in Child Neuropsychiatry at the University of Cagliari.

He is the Principal Investigator in a number of research studies on developmental psychopathology and psychopharmacology, including several EMA registrative clinical trials, four EU 7th Framework Program projects and, currently, an EU Innovative Medicine Initiative (IMI2) project.

Prof. Zuddas is the Chair of the ECNP Child & Adolescent Neuropsychopharmacology Network (recognized also by EnprEMA) and coordinates the ECNP Child & Adolescent Neuropsychopharmacology School. He is also member of the Editorial board of several International Journals in Child & Adolescent Psychiatry.

## STATE OF THE ART SPEAKER

14H00-14H45

Room: 0.15

**ULRICH REININGHAUS  
(CANCELED)**

**'Shifting the Curve' revisited – new developments and challenges in ecological translation of public mental health provision**

Ulrich Reininghaus is Heisenberg Professor at the Department of Public Mental Health, Central Institute of Mental Health (CIMH), Mannheim, and a Visiting Professor at the Health Service and Population Research Department, Institute of Psychiatry, Psychology and Neuroscience, King's College London. His main research interests are in the ecological translation of evidence-based innovations in public mental health provision using innovative participatory, evaluation, and implementation science frameworks and cutting-edge digital technology for delivering evidence-based mental health promotion, mental disorder prevention and mental health care. To this end, his work seeks to identify momentary risk and protective mechanisms, socio-environmental contexts and settings across the continuum of mental health and, in a next step, translate this into novel digital interventions and services – ecological momentary interventions (EMI) in particular – that target these mechanisms, contexts and settings in real time and in the real world.

Professor Reininghaus was awarded a Ph.D. by Queen Mary University of London in 2011. He trained as a postdoc at the Department of Psychiatry, University of Cambridge, and the Institute of Psychiatry, King's College London. His interest in innovative digital assessment and intervention then led him to work at the Department of Psychiatry and Psychotherapy, Maastricht University, where he was last appointed as Associate Professor before he moved to CIMH in 2018 to head the newly established Department of Public Mental Health. Professor Reininghaus has been awarded several competitive fellowships for his work, including by the UK National Institute for Health Research, the Netherlands Organisation for Scientific Research (NWO), and most recently a Heisenberg Professorship by the German Research Foundation (DFG). His current work is funded by several grants, including from the EU, ZonMw, BMBF, DFG, and MWK.

7  
PROGRAMME - TUESDAY 21 JUNE 2022

## 15H15-16H30: PARALLEL SESSION 3

**S31 Unpicking the Overlap between Autism and Eating Disorders: Developmental Pathways in Childhood and Adolescence**

TRACK: DETERMINANTS

Chair: Moritz Herle

Co-chair: Virginia Carter Leno

Discussant: William Mandy

Room: AUDITORIUM 1

## PRESENTATIONS:

15h15-15h30

**#590 Associations between childhood autistic traits and adolescent eating disorder behaviors are mediated by fussy eating**

Virginia Carter Leno

*King's College London Institute of Psychiatry, Psychology & Neuroscience London United Kingdom*

15h30-15h45

**#422 The association of autism spectrum disorder with clinical features in anorexia nervosa: a large-scale study using phenotypic and genetic data**

Lisa Dinkler

*Altrecht Mental Health Eating Disorders Rintveld Zeist The Netherlands*

15h45-16h00

**#594 Childhood eating disorders and autism spectrum disorder in UK primary care electronic health records: comorbidity and longitudinal outcomes**

Francesca Solmi

*UCL Division of Psychiatry London United Kingdom*

16h00-16h15

**#608 Links between autism symptoms and problematic eating across childhood**

Pauline Jansen

*Erasmus MC Department of Child & Adolescent Psychiatry/Psychology Rotterdam The Netherlands*

16h15-16h30

**Questions and Discussion**

All

## 15H15-16H30: PARALLEL SESSION 3

**S37 The use of eHealth to decrease mental health problems and promote well-being**

TRACK: EHEALTH NETWORKS

Chair: Annabel Vreeker

Discussant: Manon Hillegers

Room: 0.4

## PRESENTATIONS:

15h15-15h30

**#191 The Grow It! App effect: Longitudinal Changes in Adolescent Well-being During the COVID-19 Pandemic**

Evelien Dietvorst

*Erasmus MC Sophia Child and Adolescent Psychiatry Psychology Rotterdam The Netherlands*

15h30-15h45

**#200 An online psychological intervention for adolescents with a visible difference: Acceptability, feasibility and effectiveness of YP Face IT**

Marije van Dalen

*Erasmus MC Sophia Children's Hospital Department of Child and Adolescent Psychiatry/Psychology Rotterdam The Netherlands*

15h45-16h00

**#195 Personalised app-based relapse prevention of depressive-, and anxiety disorders in remitted adolescents and young adults: a protocol of the StayFine RCT**

Yvonne Stikkelbroek

*Utrecht University/ Department of Clinical Child and Family Studies, Faculty of Social and Behavioural Sciences Utrecht The Netherlands, GGZ Oost Brabant Depression Expertise Center Youth Boekel The Netherlands*

16h00-16h15

**#398 Impact Game for Young Daredevils - Interdisciplinary and user-centered development of a digital game-based intervention to promote self-regulation and addiction prevention**

Nuri Wieland

*Catholic University of Applied Sciences North Rhine-Westphalia German Institute on Addiction and Prevention Research Cologne Germany, University of Amsterdam Psychology Amsterdam The Netherlands*

16h15-16h30

**Questions and Discussion**

All

## PROGRAMME - TUESDAY 21 JUNE 2022

## 15H15-16H30: PARALLEL SESSION 3

**S45 Adolescent depression: contributions of applied phenomenology and qualitative research**

TRACK: DETERMINANTS

Chair and discussant: Jordan Sibeoni

Room: 0.15

## PRESENTATIONS:

15h15-15h30

**#248 Towards a Phenomenologically Grounded Typification of Varieties of Adolescent Depression**

H. Andrés Sánchez Guerrero

*University Hospital Münster Department of Child and Adolescent Psychiatry, Psychosomatic Medicine, and Psychotherapy Münster Germany*

15h30-15h45

**#218 qualitative exploration of adolescent depression early-treatment stage**

Jordan Sibeoni

*Université de Paris ECSTRRA Team- CRESS INSERM Paris France, Centre hospitalier d'Argenteuil SUPADO Argenteuil France*

15h45-16h00

**#242 Facilitating factors and barriers in help-seeking behaviour in adolescents and young adults with depressive symptoms: A qualitative study**

Eline Eigenhuis

*Amsterdam UMC, Department of Psychiatry, Vrije Universiteit GGZ inGeest Specialized Mental Health Care Amsterdam The Netherlands*

16h00-16h15

**#209 The experience of depression in migration: perspectives of adolescents, their parents and their health professionals**

Jonathan Lachal

*Université Clermont Auvergne - Clermont-Ferrand France, CHU Psychiatrie de l'enfant et de l'adolescent - Clermont-Ferrand France*

16h15-16h30

**Questions and Discussion**

All

## 15H15-16H30: PARALLEL SESSION 3

**S70 Diagnostics and treatment of Children and Adolescents with Trauma Related Disorders**

TRACK: TREATMENT

Chair and discussant: Ramon Lindauer

Room: 0.8

## PRESENTATIONS:

15h15-15h30

**#413 Before we start treatment: trauma screening and -diagnostics**

Lieke Kooij

*Amsterdam UMC Child and Adolescent Psychiatry Amsterdam The Netherlands*

15h30-15h45

**#429 Toddlers and preschoolers with trauma and attachment related symptoms**

Frederike Scheper

*Amsterdam UMC Child- and Adolescent Psychiatry Amsterdam The Netherlands, MOC 't Kabouterhuis Infant Mental Health Amsterdam The Netherlands*

15h45-16h00

**#438 Executive functioning as a predictor of treatment completion and responsiveness in children and adolescents with PTSD**

Rosanne op den Kelder

*University of Amsterdam Research Institute of Child Development and Education Amsterdam The Netherlands, Level Academic Center for Child and Adolescent Psychiatry Amsterdam The Netherlands*

16h00-16h15

**#418 Distinct epigenetic profiles in relation to treatment outcome in youth with Posttraumatic Stress Disorder**

Judith Ensink

*Amsterdam UMC, University of Amsterdam, Amsterdam Child and adolescent psychiatry Amsterdam The Netherlands*

16h15-16h30

**Questions and Discussion**

All

## PROGRAMME - TUESDAY 21 JUNE 2022

## 15H15-16H30: PARALLEL SESSION 3

## S76 Competencies in self-regulation in high risk cohorts of adolescents

TRACK: DEVELOPMENT

Chair: Kerstin Von Plessen

Discussant: Neeltje van Haren

Room: 0.9

## PRESENTATIONS:

15h15-15h30

**#523 Clinical and neural characteristics of emotion regulation and stress response in adolescents from the general population**

Camille Piguet

*University of Geneva Psychiatry Geneva Switzerland, Geneva University Hospital Pediatrics Geneva Switzerland*

15h30-15h45

**#526 Polyvictimization moderates stress neurobiology and contributes to anxiety in high-risk adolescents**

Aysenil Belger

*University of North Carolina at Chapel Hill Psychiatry Chapel Hill United States*

15h45-16h00

**#527 Interference control and related brain activity in healthy children at familial high-risk of schizophrenia or bipolar disorder**

Line Johnsen

*Copenhagen University Hospital Hvidovre Danish Research Center for Magnetic Resonance Copenhagen Denmark*

16h00-16h15

**#532 Is structural connectome change over time related to self-regulation in adolescent offspring at familial high risk for severe mental illness?**

Simon Poortman

*Erasmus University Medical Center Child and Adolescent Psychiatry Rotterdam The Netherlands*

16h15-16h30

**Questions and Discussion**

All

## 15H15-16H30: PARALLEL SESSION 3

## S102 Outcomes of treatment program

TRACK: TREATMENT

Room: AUDITORIUM 2

## PRESENTATIONS:

15h30-15h45

**#470 Diagnostics and Treatment of Selective Mutism**

Chaya Rodrigues Pereira

*Amsterdam UMC, University of Amsterdam Child and Adolescent Psychiatry Amsterdam The Netherlands, Levvel Child and Adolescent Psychiatry Amsterdam The Netherlands*

15h45-16h00

**#368 The benefits of mobility in dealing with hikikomori adolescents and their families**

Laura Romero

*Centre Hospitalier Intercommunal Créteil 94000 Créteil France*

16h00-16h15

**#50 Narrative Family Therapy may help families with complex psychiatric problems**

Nina Jørring

*Child and Adolescent Mental Health Center, Copenhagen University Hospital – Mental Health Services CPH, Copenhagen, Denmark Childrens outpatient unit Copenhagen Denmark*

16h15-16h30

**Questions and Discussion**

All

## PROGRAMME - TUESDAY 21 JUNE 2022

## 15H15-16H30: PARALLEL SESSION 3

## S104 Developmental disorders

TRACK: DEVELOPMENT

Room: 0.1

## PRESENTATIONS:

15h15-15h30

**#353 Early childcare and child development at age 3.5 years in France, data from the ELFE mother-child cohort.**

Ramchandrar Gomajee

*Sorbonne University, Pierre Louis Institute of Epidemiology & Public Health, INSERM U1136 Social Epidemiology Research Team (ERES) Paris France*

15h30-15h45

**#440 Diagnostic Overshadowing and Co-Morbidities: The Challenge of Developmental, Behavioral, Emotional and Mental Health (DBEM) Disorders in Early Childhood**

Mary Leppert

*Kennedy Krieger Institute Psychiatry Baltimore United States, Johns Hopkins University School of Medicine Pediatrics Baltimore United States*

15h45-16h00

**#423 Modifying role of mother's depression and stress in the association between child's program viewing and psychiatric symptoms at five years**

Janette Niiranen

*Finnish Institute for Health and Welfare Department of Public Health and Welfare Helsinki Finland, University of Helsinki, Helsinki, Finland Faculty of Social Science Helsinki Finland*

16h00-16h15

**#58 Developmental psychopathology in a community sample of children and adolescents: Associations with irritability and functional impairment**

Jala Rizeq

*University of Glasgow institute of health and wellbeing Glasgow United Kingdom*

16h15-16h30

**Questions and Discussion**

All

## 15H15-16H30: PARALLEL SESSION 3

## S50 Mentalizing Group -- Mentalization-based therapy for Adolescents (MBT-A): Recent updates in theory, assessment and treatment

TRACK: TREATMENT

Chair: Carla Sharp

Discussant: Patrick Luyten

Room: 0.6

## PRESENTATIONS:

15h15-15h30

**#326 Risky Sexual Behaviour and Adolescents and Personality Disorders: Implications for Assessment and Treatment**

Karin Ensink

*ULAVAL Psychology Quebec Canada*

15h30-15h45

**#230 The assessment of real-time mentalizing in parent-adolescent interactions: implications for MBT-A**

Carla Sharp

*University of Houston Psychology Houston United States*

15h45-16h00

**#329 Why do adolescents with borderline personality disorder drop out of mentalization-based group treatment? – Results from qualitative and quantitative studies**

Mie Sedoc Jørgensen

*Region Zealand Psychiatric Research Unit Slagelse Denmark*

## ESCAP 2022 POLICY DEBATE

### TITLE

MENTAL HEALTH ISSUES YOUTH

### CONTACT PERSON

Arne Popma  
a.popma@amsterdamumc.nl  
Authors  
Arne Popma  
Amine Bakkali  
Cassie Redlich  
Matthias Köster  
Joerg Federt  
Bernadka Dubicka

### AFFILIATION(S)

1. Amsterdam UMC The Netherlands
2. MIND US, The Netherlands
3. Technical Officer at WHO Regional Office for Europe
4. Psychiatrist Zürich Switzerland
5. University of Ulm T Department of Child and Adolescent Psychiatry/Psychotherapy Germany

### TRACK

Prevention & intervention

### BACKGROUND/OBJECTIVE

- To improve our conversations/treatments of youth by taking care of what bothers young people
- To trigger/awake professionals how to deal with shared decision making and youth participation on all levels
- To promote taking our societal responsibility to give voice to young people

### METHOD

- Input of Mc Kinsey survey, focusing on 'generation Z'. Results are available before 19th June. The survey concerns mental health issues of youngsters in 6 European countries. The results will be compared with earlier results on the survey in US.
- Input of Two working sessions Sunday morning 19th : 9 – 10.30 AM and 11.00 – 12.30 AM. In these sessions, we explore youth participation at a local, institutional, national and international level: how to deal in networks of Child and Adolescent Psychiatry with what is bothering youth? These working sessions will be structured as design workshops in which issues on the different levels are ordered along: Problems (what is bothering you?); solutions and How to get on. Particular focus will be on global context issues as Covid (and its impact on mental health of youth), War Oekraine and climate issues.
- The input of the workshops will be presented during the policy debate by means of cartoons.

### RESULTS

- The input of the morning sessions (including input Mc Kinsey survey) determine the agenda of the policy debate. Solutions and 'how to get on' are discussed with youngsters and in respectively the:
  - o Local and institutional setting/context: Matthias Köster
  - o National context and international context: Cassie Redlich

### CONCLUSIONS

Joerg Federt will summarize the conclusions and recommendations of the debate. He also points out how to deal with the results as ESCAP community in the coming years.

### KEYWORDS

Adolescent; mental health issues, prevention
